Diokno,Xinhuang Xiao,Alan Hao Yang,2019 The countries that make up Southeast Asia are seeing an incredible resurgence in their economic power Over the past fifty years their combined wealth has reached the same level as the United Kingdom and taken together they are on track to become the fifth largest world economy But that stability and success has drawn the attention of the second largest world economy China The emerging superpower is increasingly involved in Southeast Asia as part of the ongoing global realignment As China deepens its influence across the region the countries of Southeast Asia are negotiating spaces for themselves in order to respond to or even challenge China s power This is the first book to survey China s growing role in Southeast Asia along multiple dimensions It looks closely and skeptically at the multitude of ways that China has built connections in the region including through trade foreign aid and cultural diplomacy It incorporates examples such as the operation of Confucius Institutes in Indonesia or the promotion of the concept of guangxi China s Footprints in Southeast Asia raises the question of whether the Chinese efforts are helpful or disruptive and explores who it is that really stands to benefit from these relationships The answers differ from country to country but as this volume suggests the footprint of hard and soft power always leaves a lasting mark on other countries institutions Summary of Events in Lesotho ,2014 Trade Policy Review
