Corporations, Global Governance, and Post-conflict Reconstruction Peter Davis, 2013 In the past two decades the international community has shown an increased proclivity to engage in programmes of post conflict reconstruction in the aftermath of wars During the same period increased globalisation has meant that multinational companies have grown greatly in size and influence and have begun to challenge existing notions of governance at a global level Here Peter Davis explores the reconstruction processes that have taken place in Azerbaijan Bosnia and Rwanda Based on extensive field work as well as existing literature this book plots the recovery of these countries from conflict and examines in detail the role that international companies have played in that process The book also explores how companies impacts on reconstruction are governed both by the companies themselves and by the host government and international agencies managing the rebuilding process

Maritime Security and Indonesia Senia Febrica, 2017-03-27 Indonesia is the largest archipelago state in the world comprising 17 480 islands with a maritime territory measuring close to 6 million square kilometres It is located between the two key shipping routes of the Pacific and Indian Ocean Indonesia s cooperation in maritime security initiatives is vitally important because half of the world s trading goods and oil pass through Indonesian waters including the Straits of Malacca the Strait of Sunda and the Strait of Lombok This book analyses Indonesia s participation in international maritime security cooperation Using Indonesia as a case study the book adopts mixed methods to assess emerging power cooperation and non cooperation drawing from various International Relations theories and the bureaucratic politics approach It addresses not only the topic of Indonesia s cooperation but also engages in debates across the International Relations political science and policy studies disciplines regarding state cooperation Based on extensive primary Indonesian language sources and original interviews the author offers a conceptual discussion on the reasons underlying emerging middle power participation or non participation in cooperation agreements The analysis offers a fresh perspective on the growing problems of maritime terrorism and sea robbery and how an emerging power deals with these threats at unilateral bilateral regional and multilateral levels The book fills a significant gap in literature on Indonesian foreign policy making in the post 1998 era It provides the first in depth study of Indonesia s decision making process in the area of maritime security and will thus be of interest to researchers in the field of comparative politics international relations security policy maritime cooperation port and shipping businesses and Southeast Asian politics and society

Insider Trading in Developing Jurisdictions Wunmi Bewaji, 2012 The book examines the regulation of insider dealing in the developed jurisdictions using three of the G7 countries as guides with the aim of knowing how they have regulated insider trading and what lessons can be learnt from their failures and achievements It looks at regulatory regimes in the US the UK and Japan in order to consider whether these regimes can be successfully transplanted to developing countries In order to explore insider dealing in the developing world the book focuses on Nigeria Africa s most populous nation and second largest economy This book examines in theoretical and

empirical terms the law on insider trading away from the dogmatic approach of Western literature by presenting the subject from the prism of a developing jurisdiction in post colonial Africa with a divergent cultural historical social political and economic background The author analyses what shape insider dealing takes in Nigeria a predominantly illiterate society and considers the groups involved The books also explores how the concept of insider dealing regulation is understood amongst parties integral to its administration and enforcement such as lawyers judges stockbrokers and ordinary investors The legislation governing insider dealing regulation in Nigeria is critically examined to expose its strengths and weaknesses and to see how foreign provisions and legislation have been incorporated The book uses Nigerian experiences to consider its implications for other developing nations arguing that regulatory regimes need to take into account the specific social political historical and economic factors of a particular locale rather than importing regulations wholesale from developed jurisdictions

The EU and Russia in Their 'Contested Neighbourhood' Laure Delcour, 2016-12-19 The literature on the European Union influence s in its Eastern neighbourhood has tended to focus on EU level policies and prioritize EU related variables This book seeks to overcome this EU centric approach by connecting EU policy transfer to the domestic and regional environment in which it unfolds It looks at the way in which the EU seeks to influence domestic change in the post Soviet countries participating in the European Neighbourhood Policy Eastern Partnership and domestic receptivity to EU policies and templates It seeks to disentangle the various dynamics behind domestic change or lack thereof in Eastern Partnership countries including EU policy mechanisms domestic elites preferences and strategies regional interdependences and Russia s policies Based upon extensive empirical investigation on EU policies in four countries Armenia Georgia Moldova and Ukraine and in two pivotal policy sectors the book provides systematic and nuanced understanding of complex forces at work in the policy transfer process This text will be of key interest to scholars and students of international relations European studies democratization studies and East European Politics and area studies particularly post Soviet Eurasian studies
