L'invention Du Paysage:

L'invention du paysage Anne Cauquelin, 2004 La notion de paysage et d'architecture dont bien une invention un objet culturel d'aujourd'hui ayant sa fonction propre qui est de rassurer en permanence les cadres de la perception du temps et de l'espace Cette enquête philosophique sur la laboration pour nous Occidentaux de la notion de paysage part d'un constat surprenant c'est qu'il n'y a chez les Grecs anciens ni mot ni chose ressemblant de près ou de loin ce que nous appelons paysage Du Jardin d'Épicure à la sagesse d'une vieillesse des temps modernes pratiques urbaines paysagères le paysage définit un cadre de vision Il a été pensé et construit comme équivalent de la nature et ainsi nous aurions grâce au paysage un regard vrai sur les propriétés de la nature Mais quel travail faisons nous quand nous voyons un paysage **Le paysage, "fenêtre ouverte" sur le roman** Aurélie Gendrat-Claudé, 2007 **L'invention du paysage** Bas Smets, 2016

L'invention du paysage Marc Delouze, 2016 **L'arbre dans le paysage** Jean Mottet, 2002 En transformant certains lieux en paysages de dissolution les temps de 1999 ont brisé la symbolique de stabilité de l'arbre dans l'imaginaire et modifié le rapport de l'homme à la nature Une interprétation des représentations de l'arbre dans le cinéma la peinture et la photographie est proposée **Landscapes as Cultural Heritage in the European Research** María Ruiz del Árbol Moro, María Ruiz del Árbol, Almudena Orejas Saco del Valle, 2005 El objetivo principal de la acción COST A27 es la identificación y evaluación de elementos y estructuras preindustriales en los paisajes europeos amenazados por el abandono de actividades mineras y agrarias tradicionales El coloquio sobre los paisajes como patrimonio cultural en la investigación europea constituye un primer punto de encuentro tanto para los investigadores implicados en la acción como para otros expertos externos Los textos recogidos en esta publicación muestran el creciente interés por el tema por la recuperación de los paisajes como una parte esencial del patrimonio cultural y por las nuevas vías para su puesta en valor promoción y gestión en el marco global de la planificación territorial *Constructing Gardens, Cultivating the City* Amanda Shoaf Vincent, 2023-05-16 Constructing Gardens Cultivating the City is the first cultural history of major new parks developed in Paris in the late twentieth century as part of the city's program of adaptive reuse of industrial spaces Thanks to laws that gave the city more political autonomy Paris's local government launched a campaign of park creation in the late 1970s that continued to the turn of the millennium The parks in this book represent this campaign and illustrate different facets of their cultural and historical context Archival research interviews and analyses of the parks reveal how postmodern debates about urban planning the historic city public space and nature's presence in an urban setting influenced their designs In sum the city adopted the garden as a model for public parks investing in complex richly symbolic and representational spaces These parks were intended to represent contemporary twists on traditional designs and serve local residents as much as they would contribute to Paris's role as a world city The parks development process often included points of conflict pointing to differing views on what Parisian space should represent and fundamental contradictions between the characteristics of public space

and the garden as it is traditionally defined These parks demonstrate the ongoing cultivation of the city over time in which transformed sites not only fulfil new functions but also engage with history and their surroundings to create new meaning They stand for landscape as a form of signifying cultural production that directly engages with other art forms and ways of knowing Just as the Luxembourg Gardens the Tuileries and the Buttes Chaumont parks exemplify their eras cultural dynamics such parks as the Jardin Atlantique Parc Andr Citro n and the Jardin des Halles express contemporary French culture within the archetypal space of their era the city Finally they point the way to current trends in landscape architecture such as citizen gardening and ecological initiatives
