**Numerical Correlation between Impact Factor and Web Ranking of Electronic Scientific Journals Using Regression Analysis** Giorgos Kouropoulos, Γιώργος Κουρόπουλος, 2017-12-15 The present study attempts to examine the numerical correlation between web ranking of electronic scientific journals and impact factor of these journals using the method of regression analysis Regression analysis allows the option of investigating and predicting the numerical relationship between website ranking of scientific journals on the World Wide Web and the value of impact factor of the journals A sample of 57 publishers with 6 272 scientific journals and 50 standalone scientific journals was analyzed during research procedure In this study two different indicators about websites classification on World Wide Web were examined separately for 57 publishers and 50 standalone journals Alexa rank and Statscrops rank The electronic databases through the internet constitute the main information resources of this study about the impact factors The general conclusion that arises is that the impact factor of electronic scientific journals illustrates a very strong positive correlation with classification of websites on the World Wide Web Furthermore it is concluded that the change of web ranking as a function of impact factor is governed by a Gaussian function or rational function with lower Pearson coefficient and presents non linearly correlation Even if there is very strong correlation between impact factor and web rank for electronic journals the prediction of impact factor from web rank is not possible and presents many divergences [The Impact Factor of Scientific and Scholarly Journals](#) Tibor Braun, 2007 [How to Publish in Biological Sciences](#) John Measey, 2022-07-29 This book is a guide specifically for Early Career Researchers on how to publish in the Biological Sciences whether that be your first manuscript or if you re already experienced there s something for everyone Following on from How to Write a PhD in Biological Sciences A Guide for the Uninitiated it will guide you through taking your manuscript to publication in peer reviewed journals and disseminating your research more broadly It talks you through the peer review process including how to respond to reviewers comments the meaning and importance of Impact Factors and how to get citations It also explores the challenges in the academic community around Open Access and other debates including transparency overlay journals paywalls publication bias predatory journals and the dangers of bullying Whether you are a student just completing your studies or a supervisor struggling with rejections this book will provide the insider information you need to get ahead *Management and Business Research* Mark Easterby-Smith, Lena J.
