Analysing a range of sources from the black press and periodicals to literary fiction and nonfiction the book charts the development of critical representation of travel from the foundational press and periodicals which offered African Americans crucial information on travel precautions and possibilities notably during the era of Jim Crow to the woefully understudied literary fiction that would later provide some of the most compelling and lasting portrayals of the freedoms and constraints African Americans associated with travel Travel experiences often challenging and vexed provided the raw data with which writers produced images and ideas meaningful as they learned to navigate negotiate and even challenge racialized and gendered impediments to their mobility In their writings African Americans worked to realize a vision and state of freedom informed by those often difficult experiences of mobility In telling this story the book hopes to center literary fiction in studies of travel where fiction has largely remained absent      **Zora Neale Hurston** Robert E.
