*Enhancing Innovation in the Ugandan Agri-Food Sector: Robusta Coffee Planting Material & Tropical Fruit Processing*  
World Intellectual Property Organization, Travis J. Lybbert, Gracious Diiro, Dick Kawooya, Sacha Wunsch-Vincent, 2017 Uganda  
s innovation performance in recent years has consistently outpaced other low income and Sub Saharan African countries  
Though encouraging this nascent progress will only benefit the broader Ugandan population if policy makers address specific  
constraints in the innovation systems of the critical agri food sector which is hampered by low productivity and profitability  
In this report we explore these constraints using an agricultural value chains framework with particular focus on the Robusta  
Coffee Planting Material Pipeline and tropical fruit processing      **National Child-focused Policy Research Agenda**  
**2016-2020** ,2016      **Investor and Stakeholder Perception Survey, 2014-2015** ,2015      *India-Africa Economic*  
*Relations in the New Global Economy* Rick Rowden, 2025-03-18 While there have been many books about China s growing  
economic role in Africa this book explores the much less well known story of India s growing economic role in Africa And like  
the big debates about China s role in Africa this book similarly asks if India is acting as a helpful development partner in  
Africa an exploitative new colonizer or if the answer ultimately has to do with the degree of agency exercised by African  
governments While the book documents the significant increase in Indian aid trade and FDI in Africa in the new millennium it  
also offers much more It comprehensively looks at theories of economic development the debates about the role of trade and  
industrial policies in economic development strategies colonial and post colonial literature and controversial features of  
today s global political economy as the background to study Africa and frames Africa India economic relations in these broad  
contexts The book reviews the history of India s diplomacy trade and investment in African countries since decolonization  
with a focus on the increased economic ties of the past two decades The main question examined is about the longterm  
impact that India s economic relations are having in African economies and if India is helping Africa to successfully develop  
over time or not The author examines India s economic and strategic interests in the African region and offers a comparative  
analysis of Africa s trade with India China the European Union and other African nations The book also explores a number of  
outstanding issues in India Africa relations today such as Africa s role as a source of oil gas and critical minerals needed by  
India the lifesaving role of Indian generic medicines across the continent the nature of the agricultural development model  
that India is introducing in Africa and key areas where Indian and African governments are cooperating in the international  
arena The book offers a critical and in depth look into the partnerships India has developed with African countries and  
contributes to the debate on economic relations between a more developed emerging market like India and less developed  
countries A major contribution to the emerging area of South South economics this book part of the Critical Political  
Economy of South Asia series will be useful for scholars and researchers of economics development economics development  
studies public policy diplomacy African studies political economy South Asian economics and international politics and trade
