Mpumalanga September Trial Exams 2014:

Global Public Procurement Theories and Practices Khi V. Thai, 2016-12-27 This book discusses current theories and practices in the field of public procurement Over the past few decades public procurement has had to evolve conceptually and organizationally in the face of unrelenting budget constraints government downsizing public demand for increased transparency in public procurement as well as greater concerns about efficiency fairness and equity Procurement professionals have also had to deal with a changeable climate produced by emerging technology environmental concerns and tension between complex regional trade agreements and national socioeconomic goals This volume presents sixteen case studies focusing on the themes of public procurement as a policy tool and performance based public procurement The first section discusses public procurement as a policy tool and the challenges involved in balancing the competing interests of market forces legal requirements political pressures and environmental concerns The second section discusses performance based public procurement highlighting the frameworks used to assess procurement systems the gaps between policy and practice and strategies for bridging those gaps The final section of the book discusses current issues in procurement such as the Trans Pacific Partnership risk mitigation and procurement as a profession By combining theory and analysis with evidence from the real world this book is of equal use to academics policy makers and procurement professionals *Critical Issues in South African Education* Charl C. Wolhuter, 2020-12-31 The main thesis of this book is that given that South African education faces major challenges the BRICS Brazil Russia India China and South Africa constellation of states offers thus far overlooked a valuable tertium comparationis a source of international comparative perspectives to inform the domestic scholarly discourse on education This book first investigates the national contexts and development of education in the BRICS countries arguing that this grouping represents a valuable but yet overlooked field for illuminating South African education issues with international perspectives The book consists of chapters arguing for and illustrating this thesis from a variety of angles Common to all chapters is that authors used the comparative method in education that is comparing the national education system in their education societal context interrelationships of the BRICS countries The chapters focus on a number of critical issues in South African education including the language of learning and teaching issue the alignment of the world of education with the world of work early childhood education and the development of world class universities Regarding the last for example China has been the terrain of the most intensive national projects of establishing world class universities with Project 985 Project 211 and the Double First Class University project The chapters demonstrate what South Africa in approaching her education issues can learn from the experience of the BRICS countries **The South African Response to COVID-19** Pieter Fourie, Guy Lamb, 2023-03-28 This book analyses the first two years of South Africa's response to the COVID 19 epidemic from its emergence in early 2020 Drawing on the perspectives of a range of public health experts economists and other social scientists and development practitioners this book argues that understanding this early

response will be essential to moderate and improve future policy thinking around health governance and epidemic readiness This book provides a systemic analysis of not only the epidemiological progression of COVID 19 in South Africa but also the socio political factors that will be key in determining the future of the country as a whole including health system challenges socio economic disparities and inequalities and variable often contradictory and tardy policy responses Overall this book exposes Manichean thinking and the spurious policy dichotomies that pitch public health against human rights economic recovery against viral vector control and science against ideology with lessons not just for South Africa but also for elsewhere on the African continent and beyond This book will be perfect for researchers and practitioners across Public Health Health Policy and Global Health as well as those with an interest in South African politics and development more generally The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license
