Making Space How The Brain Knows Where Things Are

Huangqi Zhang

Making Space How The Brain Knows Where Things Are:

Making Space Jennifer M. Groh, 2014-11-05 Knowing where things are seems effortless Yet our brains devote tremendous power to figuring out simple details about spatial relationships Jennifer Groh traces this mental detective work to show how the brain creates our sense of location and makes the case that the brain's systems for thinking about space may be the systems of thought itself

Making Space Jennifer M. Groh, 2014-11-05 Knowing where things are seems effortless Yet our brains devote tremendous power to figuring out simple details about spatial relationships Jennifer Groh traces this mental detective work to show how the brain creates our sense of location and makes the case that the brain's systems for thinking about space may be the systems of thought itself

Knowing One's Place: Space and the Brain

Howard Burton, 2020-10-01 This book is based on an in depth filmed conversation between Howard Burton and Jennifer Groh Professor of Psychology and Neuroscience at Duke University After an inspiring story about how she became interested in neuroscience this extensive conversation examines Jennifer Groh's extensive research on how the brain combines various streams of sensory input to determine where things are together with the corresponding implications for a wide range of issues from neuroplasticity to evolutionary mechanisms This carefully edited book includes an introduction Framing Evolution and questions for discussion at the end of each chapter I From Ticks to Brains Becoming a neuroscientist II Historical Background On the shoulders of giants III Frames of Reference Integrating sensory systems IV Mysterious Overlap Fitting the pieces together V Smell An overlooked sense VI Brain Maps Making a picture VII Ice Cream Cones and Multiplexing Same neurons different functions VIII Navigating Rats Place fields and memory IX Neuroplasticity Phantom limbs cochlear implants and feedback X Evolutionary Mechanisms Repeat performance XI The Road Ahead Testing neurons for contrast About Ideas Roadshow Conversations Presented in an accessible conversational format Ideas Roadshow books not only explore frontline academic research but also reveal the inspirations and personal journeys behind the research

Conversations About Neuroscience Howard Burton, 2020-10-01 Conversations About Neuroscience include the following five carefully edited Ideas Roadshow Conversations featuring leading neuroscientists with a detailed preface highlighting the connections between the different books I Constructing Our World The Brain's Eye View A conversation with Lisa Feldman Barrett This book is based on an in depth filmed conversation between Howard Burton and Lisa Feldman Barrett University Distinguished Professor in Psychology at Northeastern University This extensive conversation covers topics such as Lisa's winding career path from pre med to clinical psychology to an academic career in neuroscience and her research on how the brain works and the development of her theory of emotion every moment of our life our brain is anticipating and making sense of sensory inputs from its environment the combination of the internal environment of the body and the external environment and our brain uses conceptual knowledge to do that II Knowing One's Place Space and the Brain A Conversation with Jennifer Groh This book is based on an in depth filmed conversation between Howard Burton and Jennifer Groh

Professor of Psychology and Neuroscience at Duke University After an inspiring story about how she became interested in neuroscience this extensive conversation examines Jennifer Groh s extensive research on how the brain combines various streams of sensory input to determine where things are together with the corresponding implications for a wide range of issues from neuroplasticity to our predictive brain to evolutionary mechanisms III Vision and Perception A Conversation with Kalanit Grill Spector This book is based on an in depth filmed conversation between Howard Burton and Kalanit Grill Spector Professor in Psychology and the Stanford Neurosciences Institute at Stanford University Kalanit Grill Spector s is a vision specialist with a background in computational neuroscience Her research examines how the brain processes visual information and perceives it This extensive conversation explores how functional imaging techniques are used to visualize the brain in action and how it functions to recognize people objects and places Kalanit also discusses how the anatomical and functional properties of the brain change from infancy to childhood through adulthood and how this development is related to improved visual recognition abilities IV Investigating Intelligence A conversation with John Duncan This book is based on an in depth filmed conversation between Howard Burton and neuroscientist John Duncan University of Cambridge and examines fascinating questions in neuroscience such as What is intelligence and what does IQ testing tell us Can intelligence be measured and improved What role does our frontal lobe play in executive control John Duncan has rigorously investigated these types of issues for years and this conversation covers all those questions plus topics such as impairments following brain damage functional brain imaging and the brain basis for attention intelligence and cognitive control V Minds and Machines A conversation with Miguel Nicolelis This book is based on an in depth filmed conversation between Howard Burton and Miguel Nicolelis Professor of Neurobiology Neurology Neurosurgery Biomedical Engineering Psychology and Neuroscience and Orthopaedic Surgery and Co Director of the Center for Neuroengineering at Duke University This thought provoking conversation dives into Miguel Nicolelis extensive and important research for over 20 years now and how he has been blurring the line between science fiction and science fact developing increasingly sophisticated ways of harnessing the thoughts of rats monkeys and humans to drive mechanical devices in the rapidly emerging field of brain machine interfaces As he continues to explore how best to apply this fascinating technology to liberate paralysis victims and Parkinson s sufferers from their neurological constraints Nicolelis remains focused on challenging conventional wisdom of what the brain is and how it works consistently probing the evolving frontier between body and mind Howard Burton is the creator and host of Ideas Roadshow and was the Founding Executive Director of Perimeter Institute for Theoretical Physics Transnational Religious Spaces Philip Clart,Adam Jones,2020-07-06 This volume bringing together work by scholars from Europe East Asia North America and West Africa investigates transnational religious spaces in a comparative manner by juxtaposing East Asian and African examples It highlights flows of ideas actors and organizations out of into or within a given continental space These flows are patterned mainly by colonialism or migration The book also examines cases where the transnational

space in question encompasses both East Asia and Africa notably in the development of Japanese new religions in Africa Most of the studies are located in the present a few go back to the late nineteenth century The volume is rounded off by Thomas Tweed s systematic reflections on categories for the study of transnationalism his chapter Flows and Dams critically weighs the metaphorical language we use to think speak and write about transnational religious spaces **The British Journal of**

Making Space How The Brain Knows Where Things Are Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Making Space How The Brain Knows Where Things Are free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Making Space How The Brain Knows Where Things Are free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various

categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Making Space How The Brain Knows Where Things Are free PDF files is convenient, it's important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but it's essential to be cautious and verify the authenticity of the source before downloading Making Space How The Brain Knows Where Things Are. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether it's classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Making Space How The Brain Knows Where Things Are any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About Making Space How The Brain Knows Where Things Are Books

1. Where can I buy Making Space How The Brain Knows Where Things Are books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
