Mpumalanga Paper Life Science 2014

**Mary Clasquin-Johnson, Dikeledi
Mahlo, Michel Clasquin-Johnson**

Mpumalanga Paper Life Science 2014:

Africa's Top Geological Sites Richard Viljoen, 2016-09-01 Africa is home to more than the Cradle of Humankind. It was the core of the ancient supercontinent Pangaea and comprises some of the oldest and most extraordinary geology on planet Earth. This detailed and colourful book features 44 of the continent's most spectacular and interesting geosites from Table Mountain in the south to the eroded necks and plugs of the Hoggar region in Algeria and from the volcanic islands of the Atlantic Ocean to the continental fragments off the African east coast. Each site is authored by a geologist or specialist in a related field with in-depth knowledge about the particular feature or landform, how it formed and developed, its current geological status, ecological impact and its archaeological and cultural interest. Supported with many photographs, maps, satellite images and explanatory illustrations, the text is accessible to geologists and lay enthusiasts alike, unpacking the hows and whys of Africa's most intriguing landforms, sites and geological features.

Autism Mary Clasquin-Johnson, Dikeledi Mahlo, Michel Clasquin-Johnson, 2023-02-10 This book is written at a time of a paradigm shift in the African continent where dependence on western epistemologies and ontologies are giving way to African indigenous knowledge systems. Africa has been an importer of knowledge from the west since time immemorial, and this book contributes to the body of knowledge on autism spectrum disorder (ASD) from the African perspective. As a result, decoloniality and Inclusive Education have gained traction within the academic discourse with the University of South Africa (UNISA) hosting decoloniality annual conferences and a summer school to stimulate academic discussions and debates with a focus on African indigenous knowledge systems and theoretical lenses as opposed to the western epistemologies. The book also demystifies some of the misconceptions that children with ASD are a curse and punishment from God or gods. Among others, Ubuntu seems to be the dominant theoretical framework underpinning some of the research studies reported in this book.

Psychology of Retention Melinde Coetzee, Ingrid L. Potgieter, Nadia Ferreira, 2018-08-30 This book offers a contemporary review of talent retention from the viewpoint of human resource management and industrial organisational psychology. With a practical and relevant perspective, it enriches critical knowledge and insight in the psychology of talent retention. It offers interpretation of difficult factors facing organisations such as the conceptualisation of talent, the forecasting of talent demand and supply, external and internal factors that influence talent attraction, development and retention, the alignment between talent management and business strategy. Also covered is the implementation of human resource practices and strategies in response to the needs of different organisational contexts and workforce characteristics. The chapter contributions will not only enrich knowledge and insight in the complex phenomenon of talent retention but also advance new, original ways of thinking and researching this critically important area of inquiry. The book is intended for graduate students and researchers as an overview of the topic of talent retention. Practitioners will also find it informative.

An Outline of the Origins of Money Heinrich

Schurtz,2024-12-20 On this subject I only knew the excellent little book by the late Schurtz Marcel Mauss 1914 *Les origines de la notion de monnaie* Heinrich Schurtz s 1898 book has been a touchstone for economic historians anthropologists and philosophers interested in the nature and origins of money in various societies including Georg Simmel Max Weber Marcel Mauss and Karl Polanyi Schurtz experimented with concepts about money going beyond traditional economic paradigms Drawing on an extensive range of archaeological and ethnographic sources he reframed a theory of money to include its materiality symbolic nature relationship to forms of property and its dual origin in outside and inside money While not well known today it was important to the theorization of money in the first half of the 20th century and its innovative synthesis offers galvanizing questions and insights into how value relations are formed and how currency systems are interrelated

Public Secrets and Private Sufferings in the South African AIDS Epidemic Jonathan Stadler,2021-04-26 This book tells the story of the HIV epidemic in South Africa and asks why after more than three decades it has not normalised Despite considerable efforts to prevent infection and ambitious targets set to end the epidemic by 2030 HIV infections are increasing among young women and treatment uptake and adherence have been uneven Focusing on the years preceding and following treatment access this book addresses why an end to AIDS may be misplaced optimism By examining public discourses and private narratives about infection illness and death this work reveals the contradictions between the lived experiences of

AIDS suffering on the one hand and biomedical certainties on the other Based on long term ethnographic research in rural villages of the South African lowveld and within HIV prevention interventions in South Africa more generally this book offers an intimate perspective on the social and cultural responses to the epidemic

The Palgrave Handbook of Urban Development Planning in Africa Meleckidzedek Khayesi, Francis Nyongesa Wegulo, 2022-11-25 Where can one get a synthesis of research findings on urban development planning in Africa This book addresses this gap in knowledge by distilling existing research to provide insights into theories research designs empirical findings and approaches on urban development planning in Africa Starting with the overall planning culture and strategies the book chapters move on to specific themes such as governance population poverty water recreation transport agriculture air quality and rural urban linkages This book reduces the prevailing risk of unnecessary duplication of research and the inadequate attention that is being given to extending research in new areas This situation has partly been due to existing research remaining scattered in different organizations and publications and has not been subjected to critical synthesis to unearth any new developments that it contains The book makes available research findings to be utilized in current and future urban development planning in Africa

No Last Place to Rest Dineo Skosana, 2025-02 No Last Place to Rest Coal Mining and Dispossession in South Africa is an exploration of the ongoing struggles faced by families whose lives have been upended by the relentless expansion of coal mining operations in the Mpumalanga and KwaZulu Natal provinces These regions burdened with the task of fulfilling the nation's energy needs and boosting the country's economy witness daily the harsh realities of land dispossession that extend far beyond the mere loss of property Dineo Skosana presents a compelling argument that dispossession remains a present day reality and crisis contradicting the notion that it is merely a relic of the past in the post apartheid landscape She challenges the narrow perspective that measures land loss in material and economic terms only By considering the impact of grave relocations a common occurrence in these mining dominated locales she demonstrates the profound spiritual anguish and dehumanisation communities endure as their lands are excavated and families lose their sacred connections with their ancestors Skosana argues that the act of dispossession of both the living and the dead from their land wounds the collective soul of a people eroding their cultural heritage collective identity and sense of belonging This book offers a rich ethnographic account of the experiences struggles and resistance of the affected communities as well as a critical analysis of the legal and policy frameworks that enable their exploitation In relation to the land question in South Africa No Last Place to Rest presents deep insights for communities activists and government sectors acting in support of social justice and redress
