generations countless researchers and biographers have sought to identify Tolkien's inspiration without success. Now at last the answer is at hand. Abyssinia, modern-day Ethiopia, was an ancient Christian Empire that was one of the world's four greatest powers after the time of Christ, but it became isolated by the rise of Islam. Besieged in its highland fortress, it became a land untouched by the passage of time. It survived as the only part of Africa that was not colonized by European powers and became internationally prominent in the years immediately prior to Tolkien's writing because of the Italian war in 1935. Home to a 3,000-year-old dynasty of kings and the horse-riding prowess of the Oromo tribe, Abyssinia's history is rich and varied. The legends of its greatest saints are unique, and around its borders it faced powerful enemies.

**The Real Middle-earth**

**The Origins of The Lord of the Rings** reveals fascinating insights into Tolkien and the ancient realm of Abyssinia and makes connections between them that will leave you astounded. About the Author: Michael Muhling was born in Perth in 1971. He began reading *The Lord of the Rings* when he was ten years old and has been a fan of Tolkien ever since. Mike subsequently became an avid reader of the fantasy genre, but Tolkien remained his favourite author because of the depth and detail in his stories. Several years ago, Mike and his wife began taking a keen interest in Ethiopia, and in 2005, Mike identified the connection between Tolkien and Ethiopia. Since then, they have travelled to Ethiopia three times, thoroughly enjoying its history, culture, and hospitality. Mike lives in Perth, Australia, with his wife and two children.

**The Shaping of Middle-earth**

J.R.R. Tolkien, Christopher Tolkien, 1995-10-30. Poems and prose, maps and chronologies, detours and diversions along the road to Middle-earth. Christopher Tolkien has gathered archival materials that his late father, J.R.R. Tolkien, used to create the world and the history behind his classic stories. This fourth volume of *The History of Middle-earth* presents early versions of those first tales, from the creation myth to the fall of Morgoth. Writings include a chronology of the events in Beleriand, the first *Silmarillion* map, and the only known description of the physical nature of Middle-earth's universe. Detailed annotations highlight changes ranging from the spelling of Elvish

names to pivotal emendations whose effects reach even to the war of the ring The Shaping of Middle earth presents a solid framework by which to trace the development of the early lore of Middle earth It is a truly indispensable reference work for those familiar with the history of that endlessly beloved land and fascinating reading for those just entering that world

**The Shaping of Middle-earth** John Ronald Reuel Tolkien, 1995 This volume in the history of Middle earth offers prose poetry maps and chronologies and covers the creation myth through Morgoth's fall includes a description of the events in Beleriand and the first Silmarillion map

**Representations of Nature in Middle-Earth** Martin Simonson, 2015-07-10 Tolkien's portrayal of nature in Middle earth has been interpreted in a variety of ways often depending on the context of the reading Some have seen Middle earth and its potential destroyer the Ring as an allegory of the European continent under the threat of the atomic bomb while others have embraced it as an artistic expression of the Green movement's agenda in the face of industrial abuse Some have read nature in Tolkien's work in terms of myth and religion yet others take the exhaustive descriptions of the physical environment as a sign that Middle earth itself is the central protagonist of the stories All in all nature in Middle earth plays a crucial role not only in the creation of atmospheres and settings that enhance the realism as well as the emotional appeal of the secondary world it also acts as an active agent of change within the setting and the story This collection of essays explores Middle earth as an ecological entity a scene for metaphysical speculation an arboreal depository of cultural memory and a reflection of real world natural and imperialistic processes
