

11. William gets on a bus and makes a journey of 1500 metres.

His journey is shown in the distance–time graph below.

- (a) How long does William's bus journey take?

- (b) Calculate the average speed of the bus over the journey.

- (c) When did the bus stop to pick up passengers?

- (d) (i) During which period was the bus travelling fastest?

- (ii) Calculate the speed of the bus during this part of the journey.

Ks3 Year 9 Science Past Papers

Arthur James Wells

Ks3 Year 9 Science Past Papers:

The Online Tutor's Toolkit Molly Bolding, 2022-10-12 This book contains everything you need to know to get started as an online tutor. It covers the essentials of tutoring: choosing your tech and software, managing homework and getting set up, alongside detailed guidance focusing on each level of tuition. With techniques developed through research and first-hand experience, the author explains exactly how to turn existing subject knowledge into effective tutoring for students of all ages in a variety of subjects. Divided into two parts, the first answers the logistical questions facing every new tutor, such as what equipment do I need? Where can I apply? How much should I charge? The second half focuses on how to tutor different age groups effectively and subject-specific areas including English, Maths and Science, as well as the author's tried and tested 5-step process for choosing a subject, assessing a student and planning their first lessons. There is also information on how to support students writing personal statements and applying to university, as well as teaching English as a Second Language. Alongside tailored up-to-date information on available software, hardware, exam specifications and the online tutoring marketplace, the book contains a 10-week timetable of adaptable lesson plans so new tutors can get started immediately. Finally, there are two additional downloadable chapters which expand on less common subjects and another which includes a digital download of every resource from the book. With suggestions for resources, homework and timings to support you at every stage, this is an essential read for anyone wanting to succeed as an online tutor.

How to Run your Department Successfully Chris Turner, 2005-03-01 It is increasingly being acknowledged that subject leaders hold the key to school improvement and professional development. However, there is little information available for subject leaders to help them with the day-to-day practicalities of running a department on top of existing teaching commitments. This uniquely practical book deals specifically with current issues faced by subject heads of department (HoDs). Engagingly and entertainingly written, this book covers the major areas of concern to subject leaders, including leadership styles, managing staff, managing pupil performance, strategic planning, curriculum development and coping with problems.

Spotlight Science Keith Johnson, Sue Adamson, Gareth Williams, 2002 This Spiral Edition Teacher Support Pack offers comprehensive support and guidance, providing the best possible learning experience for your students and saving time for everyone in the department.
