Errors and Misconceptions in Maths at Key Stage 2 Mike Spooner,2012-07-26 The activities in this book are designed
both to help children to learn and to understand math concepts and also to prepare them for taking SATS papers at KS2
There is plenty of research evidence to suggest that children are helped in their understanding of math problems if teachers
focus on common misconceptions and if children are given opportunities for discussion and explanation of their own
understanding Children can also feel stigmatized by being made to focus on their own errors Mike Spooner has developed
activities that present already completed work which children then assess correct and discuss in this way they can analyze
mistakes without damage to their own self esteem The activities are presented in the same format as the SATS papers to give
children practice in coping with that format The book also contains writing frames that children can use to structure their
