May June 2maths Paper 4:

Probability and Statistics by Example: Volume 1, Basic Probability and Statistics Yuri Suhov, Mark Kelbert, 2014-09-22
Probability and statistics are as much about intuition and problem solving as they are about theorem proving. Consequently students can find it very difficult to make a successful transition from lectures to examinations to practice because the problems involved can vary so much in nature. Since the subject is critical in so many applications from insurance to telecommunications to bioinformatics the authors have collected more than 200 worked examples and examination questions with complete solutions to help students develop a deep understanding of the subject rather than a superficial knowledge of sophisticated theories. With amusing stories and historical asides sprinkled throughout this enjoyable book will leave students better equipped to solve problems in practice and under exam conditions. *Probability and Statistics by Example* Yu. M. Suhov, Mark Kelbert, 2014-09-22

14 YEAR-WISE CTET Paper 2 (Mathematics & Science) Solved Papers (2011 - 2020) - 3rd English Edition Disha Experts, 2020-04-06

Women and Work Susan Bullock, 1994
Extrait de la couverture All around the world women work. Yet the work they do has always been and continues to be considered as less important than that performed by men. In many cases women's activities are not even acknowledged as work. Not only do women encounter more obstacles than men in education and training but they are over-represented amongst the lowest paid part-time workforce enjoying few employment rights. Recognition of this has led to adoption of measures over the past two decades to eliminate gender discrimination and to promote equality of opportunity and treatment for women workers. This book is a contribution to the efforts being made mainly by women themselves to ensure that these initiatives are implemented. The author draws together research on gender

work and development and emphasises that the concept of work should include not only paid labour but all of those activities which contribute to production and development
