 Kimathi has over 20 years experience in repair and service of home electrical appliances Microwave oven which was invented  
 in 1958 by accident has become an household name as many families have adopted this mode of warming food in seconds An  
 increase for the use of this technology has come with the need for personnel to service and maintain these gadgets Unlike  
 other home electrical appliances microwave repair is the most dangerous both to the user and service personnel In this  
 regard I have dedicated a full chapter on the safety around working on the microwave and also testing microwave leakage for  
 the safety of the user before handing back the machine to the customer and also for the service technician SAFETY FIRST
