

Scheme of Work – Mathematics stage 2

Introduction

This document is a scheme of work created by Cambridge as a suggested plan of delivery for Cambridge Primary Mathematics stage 2. Learning objectives for the stage have been grouped into topic areas, or 'Units'. These have then been arranged in a recommended teaching order but you are free to teach objectives in any order within a stage as your local requirements and resources dictate.

The scheme for Mathematics has assumed a term length of 10 weeks, with three terms per stage and three units per term. An overview of the sequence, number and title of each unit for stage 2 can be seen in the table below.

The scheme has been based on the minimum length of a school year to allow flexibility. You should be able to add in more teaching time as necessary, to suit the pace of your learners and to fit the work comfortably into your own term times.

Problem Solving learning objectives are recurring, appearing in every unit. Activities and resources are suggested against the objectives to illustrate possible methods of delivery.

There is no obligation to follow the published Cambridge Scheme of Work in order to deliver Cambridge Primary. It has been created solely to provide an illustration of how delivery might be planned over the six stages.

A step-by-step guide to creating your own scheme of work and implementing Cambridge Primary in your school can be found in the Cambridge Primary Teacher Guide available on the Cambridge Primary website. Blank templates are also available on the Cambridge Primary website for you to use if you wish.
