Tardieu, Céline Horgues, 2019-08-21 This book provides a comprehensive critical account of tandem learning charting its evolution from its origins in European educational settings to modern programs offering new perspectives on the approach's role within higher education Taking stock of the ways in which increased globalization has produced new linguistic and sociocultural realities the volume begins by looking back at the development of tandem learning over the last several decades growing out of a need to create more opportunities for L2 learners to communicate in their target language The book then

examines the different learning objectives and learning outcomes of tandem learning arrangements moving toward a discussion of tandem learning's potential role in shaping language policy and the unique challenges involved in implementing tandem programs at higher education institutions. The final section of the book brings the previous discussions together to consider new tools and technology and the ways in which they can better equip language educators to implement tandem learning in their own practice. Highlighting tandem learning's potential to promote multilingual and multicultural learning on a global scale, this volume will be of particular interest to students and researchers in intercultural communication, language education, multilingualism, and applied linguistics.

**Engaging with Linguistic Diversity** David Little, Déirdre Kirwan, 2019-06-13. *Engaging with Linguistic Diversity* describes an innovative and highly successful approach to inclusive plurilingual education at primary level. The approach was developed by Scoil Bhr de Cail n Blanchardstown as a way of converting extreme linguistic diversity (more than 50 home languages) in a school of 320 pupils into educational capital. The central feature of the approach is the inclusion of home languages in classroom communication. After describing the national context, the book traces the development of Scoil Bhr de's approach and explores in detail its impact on classroom discourse, pupils' plurilingual literacy development, and their capacity for autonomous learning. The authors illustrate their arguments with a wealth of practical evidence drawn from a variety of sources; pupils' and teachers' voices are especially prominent. The concluding chapter considers issues of sustainability and replication and the implications of the approach for teacher education. The book refers to a wide range of relevant research findings and theories, including translinguaging, plurilingual and intercultural education, language awareness, and language learner autonomy. It is essential reading for researchers and policy makers in the field of linguistically inclusive education.

**On Cassette**, 1990 *Drawing the Line* Juliet Fall, 2017-11-30. This book provides the first comprehensive and critical examination of the spatial assumptions underpinning transboundary protected areas in Europe at a time of surging global enthusiasm in creating and managing such areas. It explores how the reliance on the natural science approach to space within environmental planning has led to a return of exclusionary discourses in paradoxical contrast to the stated claims of designing peace parks. The book builds a much needed link between the critical geopolitical literature on boundaries and social approaches to nature and hybridity. *Drawing the Line* is theoretically informed yet grounded in substantial fieldwork from sites in France, Germany, Italy, Poland, Romania, Slovakia, and the Ukraine. It uses material from the field to build and question theoretical debates, moving beyond site-specific issues to wider patterns and trends.
