Telling Stories Differently Janet Condy, 2015-09-01 The aim of this book is to share a relatively loose collection of studies using digital storytelling as a pedagogical tool in Cape Peninsula University of Technology CPUT The book takes an informed social justice approach to teaching and learning at the heart of which is the exploration of DST as a practice of voice and agency Voice and agency are important in excavating and recovering subjugated identities and moving the concerns of those occupying subaltern spaces to the mainstream of teaching and learning Yet this discursive shift is not without inherent challenges Multi modal technologies are reflective of wider inequities in the so called technological divide Whilst this is a book about higher education there are important lessons for schooling On the one hand the book is a powerful demonstration of the potential of DST for enhancing learning in schools particularly in schools serving the poor and marginalised On the other hand improving teaching and learning in higher education through the creative use of technology is essential to overcome the learning challenges of those entering tertiary level institutions

Design is Power Francesco Galli, 2020-12-03T00:00:00+01:00 We are no longer used to critically examining the meaning of design which maintains an unexplored dimension in terms of the Power that can be exercised through the cyclic act of creation preservation and disruption This assumption induce us focus on the contrast between the visible side of the act that involves all its conceptual and practical manifestations and a hidden or dark side that deals with politics and power play but that however has a major influence in the process and its hierarchical dynamics This implies an order on the surface seems to be naturally stirred by

the so called perceptions that reflect the preferences of overall public opinions however looking deeper all the production acts involves a carefully controlled disequilibrium influenced by social ecological economical and political interests The power fl ow in the act of design takes into consideration the paradoxical contradiction between its potentiality and its preservation of power **Statutory Instruments** Great Britain,1953 **Stanford 150** ,2008 Gaffney's Local Government in South Africa ,2007 **Report of the Department of Labour for the Fiscal Year Ending ...** Canada.
