Advances in Legume Research: Physiological Responses and Genetic Improvement for Stress Resistance Phetole

Mangena, 2020-12-03 For centuries legumes have been used as pulses or grains serving as the most critical sources of major protein oil producing crops for both human and animal consumption and for providing raw materials for industrial processing. They are highly valued as soil building crops improving soil quality through their beneficial involvement in biological nitrogen fixation a symbiotic partnership with rhizobia. *Advances in Legume Research: Physiological Responses and Genetic Improvement for Stress Resistance* serves as a unique source of information on the distinct aspects of basic and applied legume research for general readers students academics and researchers. The book gives several insights on the morphological physiological and genetic responses to stresses via 8 concise chapters covering all aspects of legume growth utilization and improvement. The included chapters present research findings and succinct reviews concerning the strides continuously made in the improvement of legumes against biotic and abiotic stress factors. This comprehensive new legume reference book disseminates key information pertaining to genetic diversity conservation cultivation manipulation through mutagenic techniques plant transformation and other breeding technologies. The book therefore continues to build on the need to acquire new knowledge about legume crops and ways to improve their existing agricultural yield for a sustainable and secure food market. Tenderpreneurship MISTRA MISTRA, 2020-04-16 Black Economic Empowerment BEE policies have been a central pillar of attempts to overcome the economic legacy of apartheid. Yet more than two decades into democracy economic exclusion in South Africa still largely reflects the fault lines of the apartheid era. Current discourse often conflates BEE with the so called

tenderpreneurship referred to in the title namely the reliance of some emergent black capitalists on state patronage Authors go beyond this notion to understand BEEs role from a unique perspective They trace the history of black entrepreneurship and how deliberate policies under colonialism and its apartheid variant sought to suppress this impulse In the context of modern South Africa authors interrogate the complex dynamics of class formation economic empowerment and redress against the backdrop of broader macroeconomic policies They examine questions relating to whether B BEE policies are informed by strategies to change the structure of the economy These issues are explored against the backdrop of the experiences of other developing countries and their journeys of industrialisation The relevant black empowerment experiences of countries such as the United States are also discussed The authors identify policy and programmatic interventions to forge the non racial future that the constitution enjoins South Africans to build
