La Mort De Saint Louis:

The Making of Saint Louis Marianne Cecilia Gaposchkin, 2008 Canonized in 1297 as Saint Louis King Louis IX of France 1226 1270 was one of the most important kings of medieval history and also one of the foremost saints of the later Middle Ages As a saint Louis became the centerpiece of an ideological program that buttressed the ongoing political consolidation of France and underscored Capetian claims of sacred kingship M Cecilia Gaposchkin reconstructs and analyzes the process that led to the monarch's canonization and the consolidation and spread of his cult Differing political and religious ideals produced competing images of the sanctity of Louis in late thirteenth and early fourteenth century France Drawing on hagiography sermons and liturgical evidence the latter a rich but little explored historical source Gaposchkin shows how various groups including Dominicans Cistercians and Franciscans and individuals such as Philip the Fair and Joinville used commemoration of the saint king to sanctify their own politics and notions of identity and religious virtue Louis cult was disseminated to a wider nonelite public through sermons in the fourteenth and fifteenth centuries and then revived by the Bourbon kings in the seventeenth century In deepening our knowledge of this royal saint this elegantly written book opens the curtain on the religious sensibilities and secular politics of a transitional period in European history *Septieme centenaire de la mort de Saint Louis*, 1976

Saint Louis Jacques Le Goff, 2009 Canonized in 1297 as Saint Louis King Louis IX of France 1214 1270 was the central figure of Christendom in the thirteenth century He ruled when France was at the height of power he commanded the largest army in Europe and controlled the wealthiest kingdom Renowned for his patronage of the arts Louis was equally famous for his choice to imitate the suffering Christ as a humbly attired bearded penitent Armed with the considerable resources of the *nouvel historien* Jacques Le Goff mines existing materials about Saint Louis to forge a new historical biography of the king Part of his ambitious project is to reconstruct the mental universe of the thirteenth century Le Goff describes the scholastic and intellectual background of Louis's reign and most importantly he discusses methodology and the interpretation of written sources their composition provenance and reliability Le Goff divides his unconventional biography into three parts In the first he gives us the contours of Louis's life from birth to death in the usual context of family dynamics and genealogy courtly and regional politics and shifts in economic social and cultural life In sifting through the historical accounts of the king's life Le Goff determines that it is Louis IX's profound sense of moral and religious purpose his desire to become the ideal Christian ruler that colors his every action from boyhood on it is also for Le Goff what renders contemporary accounts problematic and what necessitates further scrutiny That dissection of sources occupies the second part Le Goff's intention is to pare away the layers of homily and anecdote produced by the king's early biographers to discover the true St Louis Questioning whether St Louis was merely the invention of his eulogists Le Goff penetrates beyond the literary and hagiographical evidence to the human behind the legend He brilliantly analyzes Louis's progression toward his unique self creation and its subsequent mythologizing In the third part Le Goff highlights the

contradictions within Louis and his historical image that previous chroniclers have elided and overlooked In the end he leaves us with the saint rather than the king with all the paradoxes embedded within that dual role A prolific medievalist of international renown Jacques Le Goff 1924 is the former director of studies at the L cole des Hautes tudes en Sciences Sociales Paris Among his honors is the Dr A H Heineken Prize for History bestowed in 2004 by the Royal Netherlands Academy of Arts and Sciences to Le Goff for fundamentally changing our view of the Middle Ages He was also among the recipients of the 2007 Dan David Prize in recognition of contributions to his discipline of Louis life from birth to death in the usual context of family dynamics and genealogy courtly and regional politics and shifts in economic social and cultural life In sifting through the historical accounts of the king s life Le Goff determines that it is Louis IX s profound sense of moral and religious purpose his desire to become the ideal Christian ruler that colors his every action from boyhood on it is also for Le Goff what renders contemporary accounts problematic and what necessitates further scrutiny That dissection of sources occupies the second part Le Goff s intention is to pare away the layers of homily and anecdote produced by the king s early biographers to discover the true Saint Louis Questioning whether Saint Louis was merely the invention of his eulogists Le Goff penetrates beyond the literary and hagiographical evidence to the human behind the legend He brilliantly analyzes Louis progress toward his unique self creation and its subsequent mythologizing In the third part Le Goff highlights the contradictions within Louis and his historical image that previous chroniclers have elided or overlooked In the end he leaves us with the saint rather than the king with all the paradoxes embedded in that role *Catalogue ... of the books of the St.*
