Merck Co Annual Report 2007:

Cases in Financial Reporting Ellen E. Engel, D. Eric Hirst, Mary Lea McAnally, 2009 *Vaccine Nation* Elena Conis, 2014-10-20 A strikingly honest fair minded and informed chronicle of the vaccine controversy in the United States Age of Autism By setting the complex story of American vaccination within the country's broader history Vaccine Nation goes beyond the simple story of the triumph of science over disease and provides a new and perceptive account of the role of politics and social forces in medicine Vaccine Nation opens in the 1960s when government scientists triumphant following successes combating polio and smallpox considered how the country might deploy new vaccines against what they called the milder diseases including measles mumps and rubella In the years that followed Conis reveals vaccines fundamentally changed how medical professionals policy administrators and ordinary Americans came to perceive the diseases they were designed to prevent She brings this history up to the present with an insightful look at the past decade's controversy over the implementation of the Gardasil vaccine for HPV which sparked extensive debate because of its focus on adolescent girls and young women Through this and other examples Conis demonstrates how the acceptance of vaccines and vaccination policies has been as contingent on political and social concerns as on scientific findings In Vaccine Nation Conis delivers a fascinating account of how routine childhood immunization came to be both a public health success story and a source of bitter controversy James Colgrove author of Epidemic City and State of Immunity At a moment when as Conis says children's participation in public life depends on their immunization status she favors a nuanced view of our complicated relationship with the jab Los Angeles Times New Generation Vaccines Myron M. Levine, Gordon Dougan, Michael F. Good, Gary J. Nabel, James P. Nataro, Rino Rappuoli, 2016-04-19 Highlighting the latest activities and initiatives of prominent organizations working in the vaccine industry such as the Bill and Melinda Gates Foundation The Global Alliance for Vaccines and Immunization WHO UNICEF the World Bank New Generation Vaccines Fourth Edition details steps developing countries have taken toward research development manufacture and regulation of several new vaccines for widespread use This text will cover the current state of the art techniques in vaccine development including the successes and the failures trace vaccine development from the bench to public health with regard to both FDA and European Union regulations investigate improved methods for immunizing large populations and the use of needless vaccinations discuss the advancements in the heavily government funded areas for developing vaccines against potential bioterror and infectious disease agents as well as the immunization of large population bases for diseases like Anthrax Smallpox Ebola West Nile SARS and others Updated throughout with new cutting edge information on recent breakthroughs and developments NEW TO GENERATION VACCINES FOURTH EDITION highlights the latest activities of prominent organizations in the vaccine industry covers the current techniques in vaccine development investigates improved methods for immunizing large populations *E.
