Life Orientation September:

Academic Writing, Third Edition Steven C. Roe, Pamela H. den Ouden, 2018-04-26 Now in its third edition *Academic Writing* offers a succinct and practical introduction to the development of research papers across the disciplines. Structured around contemporary genre theory which establishes the importance of context for effective communication, the text describes the writing process step by step including how to formulate a topic, gather and properly document sources, develop strong proposals, introductions, core paragraphs, and conclusions, and refine the final draft. Additionally, readers will observe the progress and thought processes of Jenna, a first year student, as she crafts her own paper. New to this edition are materials for instructors that include full length research papers, PowerPoint slides, an exam bank, and ideas for study. Rich with such pedagogical features as chapter learning objectives, annotated passages that illustrate aspects of academic style, and a glossary, *Academic Writing* is a must have textbook for students developing their research and writing skills.

Religion in Life Orientation Chrissie Steyn, 2000 Multi religious education is a reality in today's classroom but very few educators have received training in this particular field. **Factors Affecting Physician Professional Satisfaction and Their Implications for Patient Care, Health Systems, and Health Policy** Mark W. Friedberg, Peggy G. Chen, Kristin R. Van Busum, Frances M. Aunon, Chau Pham, John P. Caloyeras, Soeren Mattke, Emma Pitchforth, Denise D. Quigley, Robert H. Brook, F. Jay Crosson, Michael Tutty, 2013-10-09 The American Medical Association asked RAND Health to characterize the factors that affect physician professional satisfaction. RAND researchers sought to identify high priority determinants of professional satisfaction by gathering data from 30 physician practices in six states using a combination of surveys and semistructured interviews. This report presents the results of the subsequent analysis. **Bulletin of Duke University** Duke University. Divinity School, 1962

The Psychology of Gratitude Robert A. Emmons, Michael E. McCullough, 2004-02-26 Gratitude, like other positive emotions, has inspired many theological and philosophical writings but it has inspired very little vigorous empirical research. In an effort to remedy this oversight, this volume brings together prominent scientists from various disciplines to examine what has become known as the most neglected emotion. The volume begins with the historical philosophical and theoretical foundations of gratitude, then presents the current research perspectives from social psychology and developmental psychology as well as from primatology, anthropology, and biology. The volume also includes a comprehensive annotated bibliography of research on gratitude. This work contributes a great deal to the growing positive psychology initiative and to the scientific investigation of positive human emotions. It will be an invaluable resource for researchers and students in social psychology and developmental clinical and health psychology, as well as to sociologists and cultural anthropologists. *A Heart of Wisdom* Susan Berrin, 1999-05 We all are growing older. *A Heart of Wisdom* shows us how to understand and meet the challenges of our own process of aging and the aging of those we care about from a Jewish perspective, from midlife through the elder years.
