Mechademia 9 Origins:

Japanese Media Cultures in Japan and Abroad: Transnational Consumption of Manga, Anime, and Media-Mixes Manuel Hernández-Pérez, 2019-06-24 In the last few decades Japanese popular culture productions have been consolidated as one of the most influential and profitable global industries As a creative industry Japanese Media Mixes generate multimillion dollar revenues being a product of international synergies and the natural appeal of the characters and stories The transnationalization of investment capital diversification of themes and sub genres underlying threat in the proliferation of illegal audiences development of internet streaming technologies and other new transformations in media mix based production models make the study of these products even more relevant today In this way manga Japanese comics anime Japanese animation and video games are not necessarily products designed for the national market More than ever it is necessary to reconcile national and transnational positions for the study of this cultural production The present volume includes contributions aligned to the analysis of Japanese popular culture flow from many perspectives cultural studies film comic studies sociology etc although we have emphasized the relationships between manga anime and international audiences The selected works include the following topics Studies on audiences national and transnational case studies Fandom production and Otaku culture Cross media and transmedia perspectives Theoretical perspectives on manga anime and media mixes *Floating Worlds* Maria Roberta Novielli, 2018-01-17 Through the analysis of the work of the main Japanese animators starting from the pioneers of 1917 the book will overview the whole history of Japanese animated film including the latest tendencies and the experimental movies In addition to some of the most acclaimed directors Miyazaki Hayao Takahata Isao Shinkai Makoto Tezuka Osamu and Kon Satoshi the works of masters of animation such as Kawamoto Kihachir Kuri Y ji fuji Nobur and Yamamura K ji will be analysed in their cultural and historical context Moreover their themes and styles will be the linking thread to overview the Japanese producing system and the social and political events which have often influenced their works Key Features Insight into both mainstream and independent cinema Scientific reliability Easy readability Social and cultural context **The South Korean Film Industry** Sangjoon Lee, Dal Yong Jin, Junhyung Cho, 2024 A multifaceted exploration of the South Korean film industry **Japanese Animation in Asia** Marco Pellitteri, Wong Heung-wah, 2021-09-28 Anime is a quintessentially Japanese form of animation consisting of both hand drawn and computer generated imagery and is often characterised by colourful graphics vibrant characters and fantastical themes As an increasingly globalising expression of popular art and entertainment and distributed through cinema television and over the internet anime series and films have an enormous following not only in Japan but also in Asia This book provides a comprehensive survey of the historical development industrial structure and technical features of Japanese animation and of the overall dynamics of its globalisation in key contexts of the Asian region Specific chapters cover anime s production logics its features as an emotion industry and the involvement of a range of Asian countries in the production consumption and

cultural impact of Japanese animation **Trans-Asia as Method** Jeroen de Kloet, Yiu Fai Chow, Gladys Pak Lei Chong, 2019-11-06 This rich collection of essays offers a multi and inter disciplinary discussion of trans Asia approaches from critical theory historical studies cultural studies to film studies In doing so the authors lay down the groundwork for a more inclusive knowledge production and fruitful transnational collaboration The authors engage with the implications of trans Asia using a range of empirical cases At the heart of the book is a desire and attempt to give a grounded understanding of what trans Asia approaches are by examining human mobilities media culture flows and connections across Asia and beyond in four key aspects cross border flows and connections inter Asian comparison and referencing transnational and de nationalized approaches and cross border collaboration **Mechademia 9** Frenchy Lunning, 2014-11-15 If the source of manga and anime is physically located in Japan the temptation for many critics and scholars is to ask what aspects of Japanese culture and history gave rise to these media This ninth volume of Mechademia an annual collection of critical work on anime and manga challenges the tendency to answer the question of origins by reductively generalizing and essentializing Japaneseness The essays brought together in Mechademia 9 lead us to understand the extent to which Japan might be seen as an idea generated by anime manga and other texts rather than the other way around What is it that manga and anime produce that no other medium can precisely duplicate Is anime its own medium or a genre of animation or something in between And how must we adapt existing critical modes in order to read these new kinds of texts While the authors begin with similar questions about the roots of Japanese popular culture and media they invoke a wide range of theoretical work in the search for answers including feminist criticism disability studies poststructuralist textual criticism postcolonialism art history film theory phenomenology and more Richly provocative and insightful Mechademia 9 both enacts and resists the pursuit of fixed starting points inspiring further creative investigation of this global artistic phenomenon Contributors Stephen R Anderson Dale K Andrews Tohoku Gakuin U Andrew Ball s Jodie Beck Christopher Bolton Williams College Kukhee Choo Tulane U Ranya Denison U of East Anglia Lucy Fraser Fujimoto Yukari Meiji U Japan Forrest Greenwood Imamura Taihei Seth Jacobowitz Yale U Kim Joon Yang Thomas Lamarre McGill U Margherita Long U of California Riverside Matsumoto Nobuyuki Tokyo National Museum Laura Miller U of Missouri St Louis Alexandra Roedder Paul Roquet Stanford U Brian Ruh Shun ya Yoshimi U of Tokyo Alba G Torrents *The Animation Studies Reader* Nichola Dobson, Annabelle Honess Roe, Amy Ratelle, Caroline Ruddell, 2018-10-18 The Animation Studies Reader brings together both key writings within animation studies and new material in emerging areas of the field The collection provides readers with seminal texts that ground animation studies within the contexts of theory and aesthetics form and genre and issues of representation The first section collates key readings on animation theory on how we might conceptualise animation and on some of the fundamental qualities of animation New material is also introduced in this section specifically addressing questions raised by the nature style and materiality of animation The second section outlines some of the main forms that animation takes which includes

discussions of genre Although this section cannot be exhaustive the material chosen is particularly useful as it provides samples of analysis that can illuminate some of the issues the first section of the book raises The third section focuses on issues of representation and how the medium of animation might have an impact on how bodies gender sexuality race and ethnicity are represented These representations can only be read through an understanding of the questions that the first two sections of the book raise we can only decode these representations if we take into account form and genre and theoretical conceptualisations such as visual pleasure spectacle the uncanny realism etc
