Transnational Narcotics Trafficking across Vietnam Borderland and Lao People's Democratic Republic Hai Thanh
Luong,2017-06-21 Doctoral Thesis Dissertation from the year 2017 in the subject Law Criminal process Criminology Law
Enforcement grade A language English abstract Close proximity to the major production zones porous borderlands
mountainous frontiers and long coastlines offer advantageous conditions for trafficking narcotics The illicit drug situation has
become much more complex in Vietnam with the growth in amphetamine type stimulants production and trade Even so
empirical research and analysis of the organization and operation of transnational narcotics trafficking TransNT remains
limited The purpose of this thesis is to present the first detailed inquiry into the nature of TransNT across the border
between Lao People s Democratic Republic PDR and Vietnam using an exploratory approach which draws upon qualitative
and quantitative methods In particular the thesis presents findings from case studies of cross border trafficking between
Vietnam and Lao PDR in the period of 2003 2013 combined with interview and survey data from criminal investigation police
and drug related crimes officers CIPDRC from six border provinces who are directly and indirectly involved in investigating
these cases The findings of this study indicate that drug markets in Vietnam are not controlled by monopolistic hierarchical
organizations or cartels The structures of TransNT entities operating across the Lao Vietnam border are small based on
family ties and fellow countrymen relations are fluid and loosely organized They are very adaptable and sophisticated with
diverse modus operandi and multiple divisions of labour This presents particular challenges to law enforcement agencies
LAEs This thesis questions to capacity of Vietnam s police to enforce the government s zero tolerance anti narcotics policy
The study highlights practical problems and specific barriers in combating TransNT LEAs in Vietnam and Lao PDR operate
without effective mechanisms to cooperate and share information It is also the case that traffickers often have more
sophisticated equipment at their disposal to help them avoid arrest Police forces work within national structures and yet are
faced with the task of combatting transnational crime This reality affects law enforcement capacity at a national as well as
regional level but Association of the Southeast Asian Nations member states have yet to establish effective structures for
dealing with this non traditional security challenge Based on these findings therefore the thesis proposes recommendations
to enhancing the effectiveness of LEAs to combat TransNT between Vietnam and Lao PDR *The College Handbook* College
