Life Science Practical February 2015 Grade 12:

The Schenley Experiment Jake Oresick, 2017-04-14 The Schenley Experiment is the story of Pittsburgh's first public high school a social incubator in a largely segregated city that was highly even improbably successful throughout its 156 year existence Established in 1855 as Central High School and reorganized in 1916 Schenley High School was a model of innovative public education and an ongoing experiment in diversity Its graduates include Andy Warhol actor Bill Nunn and jazz virtuoso Earl Hines and its prestigious academic program and pensions lured such teachers as future Pulitzer Prize winner Willa Cather The subject of investment as well as destructive neglect the school reflects the history of the city of Pittsburgh and provides a study in both the best and worst of urban public education practices there and across the Rust Belt Integrated decades before Brown v Board of Education Schenley succumbed to default segregation during the white flight of the 1970s it rose again to prominence in the late 1980s when parents camped out in six day long lines to enroll their children in visionary superintendent Richard C Wallace's reinvigorated school Although the historic triangular building was a cornerstone of its North Oakland neighborhood and a showpiece for the city of Pittsburgh officials closed the school in 2008 citing over 50 million in necessary renovations a controversial event that captured national attention Schenley alumnus Jake Oresick tells this story through interviews historical documents and hundreds of first person accounts drawn from a community indelibly tied to the school A memorable important work of local and educational history his book is a case study of desegregation magnet education and the changing nature and legacies of America's oldest public schools

Taking Back Philosophy Bryan W. Van Norden, 2017-12-05 Are American colleges and universities failing their students by refusing to teach the philosophical traditions of China India Africa and other non Western cultures This biting and provocative critique of American higher education says yes Even though we live in an increasingly multicultural world most philosophy departments stubbornly insist that only Western philosophy is real philosophy and denigrate everything outside the European canon In Taking Back Philosophy Bryan W Van Norden lambastes academic philosophy for its Eurocentrism insularity and complicity with nationalism and issues a ringing call to make our educational institutions live up to their cosmopolitan ideals In a cheeky agenda setting and controversial style Van Norden an expert in Chinese philosophy proposes an inclusive multicultural approach to philosophical inquiry He showcases several accessible examples of how Western and Asian thinkers can be brought into productive dialogue demonstrating that philosophy only becomes deeper as it becomes increasingly diverse and pluralistic Taking Back Philosophy is at once a manifesto for multicultural education an accessible introduction to Confucian and Buddhist philosophy a critique of the ethnocentrism and anti intellectualism characteristic of much contemporary American politics a defense of the value of philosophy and a liberal arts education and a call to return to the search for the good life that defined philosophy for Confucius Socrates and the Buddha Building on a popular New York Times opinion piece that suggested any philosophy department that fails to teach non Western philosophy should be renamed a Department of European and American Philosophy this book will challenge any student or scholar of philosophy to reconsider what constitutes the love of wisdom

The Changing World of Outdoor Learning in Europe Peter Becker, Barbara Humberstone, Chris Loynes, Jochem Schirp, 2018-06-12 The Changing World of Outdoor Learning in Europe sets out to provide a comprehensive analysis of the economical and political changes that have occurred in European outdoor culture in the preceding two decades from a diverse range of perspectives including institutional theoretical national and educational views The book looks at how outdoor education has been transformed into an increasingly global field where established and influenced practices have been introduced into modernising and democratising nations With contributions from the members of the board of the European Institute of Outdoor Adventure Education and Experiential Learning and representatives of the networks that stand behind it this unique book provides thorough factual analyses and examinations of outdoor learning that have never been presented before The book contains contributions from across Europe with authors from the UK Germany Finland Sweden Slovenia Poland Norway and the Czech Republic Chapters within the volume by non European authors provide another perspective on the European story in a wider context As a whole the book will stimulate the ongoing debate about the nature function and organisation of outdoor education around the globe The Changing World of Outdoor Learning in Europe will be of great interest to academics researchers and postgraduate students in the fields of outdoor education

leadership and recreation and outdoor sport environmental and leisure studies It should also be essential reading for those involved in outdoor organisations in Europe and worldwide Teaching Psychology Douglas A. Bernstein, Sue Frantz, Stephen L. Chew, 2019-11-08 This thoroughly revised third edition of Teaching Psychology synthesizes the latest pedagogical research on effective teaching and translates it into recommendations for classroom application It also takes into account the many changes in the teaching landscape that have taken place in recent years Covering key topics such as planning a course choosing teaching methods assimilating technology and the integration of teaching into the rest of your academic life this book also includes an abundance of supportive supplementary content to guide and inform new teachers This content will also benefit seasoned teachers who wish to reevaluate their current teaching practices and explore new teaching ideas and techniques Presenting a comprehensive and cutting edge teaching guide for psychology teachers this book is a vital resource for those who are training psychology instructors or undertaking a teaching psychology course It is also a useful text for more experienced faculty looking to update their current teaching practices Who Gets In? Rebecca Zwick, 2017-05-15 On the disputed topic of U S college admissions everyone agrees that this high stakes competition is unfair But few agree on what a fair process would be Stressing transparency in evaluating applicants Rebecca Zwick assesses the goals and criteria of different admissions policies and shows how they can fail to produce the desired results Technical Bulletin Life Sciences and Agriculture Experiment Station, 1974 *Agents of Flourishing* Amy L.
