Madhav Godbole, *Platformization and Informality* Aditi Surie,Ursula Huws,2023-05-11 In this edited volume scholars
from Mumbai Bengaluru Jakarta Cape Town Sao Paulo and other cities of the global South explore the complex relationship
between platformization and informality through a different lens Drawing on extensive theoretical quantitative and
qualitative scholarship they provide both a useful overview and insights into the lived realities of gig work for platforms
covering a range of skills working conditions and forms of algorithmic management Platform work has attracted considerable
attention from scholars in the global North who have tended to view it as a form of casualisation of work that was previously
regulated But what about the global South where most employment especially that of women and migrant workers was
historically already informal Beyond a focus on livelihoods employment and work the authors show how labour platforms take
on powers that bring about broader impacts including those affecting identity and personal wellbeing They also illustrate the
impact of platformization on the governance of affected sectors by public agencies thus affecting political power and how
public data infrastructures contribute to further platformization The purpose of this pioneering work is to lay bare these
interactions to then rebuild our understanding of platformization and its social political cultural and economic impacts Its
insights are attentive to gender and ethnic differences as well as geographical ones *National Union Catalog* ,1973
