MONDIALISATION ET PAUVRETÉ Francine Mestrum, 2002-01-01 La pauvreté est un réel concret et douloureux pour des centaines de millions de très humains dans le monde. En même temps elle est une construction idéologique qui répond de tous temps aux besoins politiques des riches. Cet ouvrage reprend l'essentiel des données fondamentales en les présentant dans une perspective analytique mais il entre aussi dans une étude tout fait originale sur la nouvelle idéologie des pouvoirs dominants qui utilisent le phénomène de la pauvreté comme un des éléments de leur stratégie générale. Face à un monde autodestructeur qui transforme tout en marchandise voici une proposition pour un monde où la richesse s'exprime aussi en valeurs sociales Mondialisation & régulation sociale Association d'économie sociale. Journées, Chantal Euzéby, 2003 Les contributions réunies dans cet ouvrage s'organisent autour de quatre grands axes traitant des lieux sur la mondialisation des changes et ses implications sociales mondialisation travail politiques sociales et nouveaux besoins sociaux dans les pays développés mondialisation et développement social dans les pays du Sud et dans les économies en transition d'Europe de l'Est régulation sociale quel niveau et selon quelles modalités L'Association d'économie sociale a choisi pour ses XXIII^e Journées d'études organisées à Grenoble en septembre 2003 de présenter cette thématique **La mondialisation des classes sociales** Anne-Catherine Wagner, 2020-10-01 La mondialisation bouleverse les anciennes hiérarchies produit de nouveaux clivages entre les classes ouvre aussi des voies d'ascension sociale. Il convient par conséquent de repenser l'analyse des classes sociales dans ce nouveau contexte. Comment se recomposent aujourd'hui les rapports sociaux? Les lignes traditionnelles sont elles brisées par l'ascension d'une classe dominante mondiale? L'internationalisation des classes supérieures traduit la recherche d'une distinction par rapport à ceux qui restent enracinés dans un espace local? L'accès des autres classes à l'espace mondial est-il pour autant fermé? Des réseaux transnationaux d'entraide et de solidarité attestent aussi de la mondialisation de certaines fractions des classes populaires. Comment s'articulent mobilité géographique et mobilité sociale? Cet ouvrage présente les recherches et les données récentes sur ces questions et montre comment le concept de capital international permet de rendre compte de la reconfiguration des hiérarchies imbriquées de classes mais aussi de genre et d'origine dans la mondialisation.
