with 2.b3 Marek Soszynski,Jerzy Konikowski,2018-02-28 The Queenside Fianchetto Factor In the first full book to examine 2 b3 against the Sicilian French and Caro Kann mainlines interesting sidelines and current theory are reviewed In addition what actually happens in modern practice is surveyed The authors are optimistic for White and concentrate on the best continuations while trying to be objective It is in that spirit that they conclude that 2 b3 is sound against the Sicilian fun

against the French and curious against the Caro Kann In all three cases the objective is to sabotage Black's play to take him out of his comfort zone The word sabotage has historically derived from throwing a clog into machinery or in other words throwing a monkey wrench in the works here the wrench is a queenside fianchetto White aims his light square bishop toward the right flank he typically delays Ng1 f3 so that he may play Qd1 f3 or advance his f pawn and use his light square bishop to build a full scale kingside attack Queenside castling often occurs hoping for a kingside pawn storm Yet despite all these characteristics of 2 b3 White may still retain the option of d2 d4 for a more conventional looking 1 e4 opening With 2 b3 you will have one more arrow in your theoretical quiver to battle Black And like it or not Black will be compelled to deal with the queenside fianchetto factor
