*The High-risk Surgical Patient* Paolo Aseni, Antonino Massimiliano Grande, Ari Leppäniemi, Osvaldo Chiara, 2023-03-07 It is well known that certain diseases and patient conditions are associated with increased perioperative risk. The aim of this book is to define and identify the clinical factors that warrant a broader and more detailed assessment of pre-operative surgical risk in difficult and unusual clinical settings. One of the sections is dedicated to the main pathway of peri and post surgical critical care based on the patient specific deterioration risk and associated diseases. Here a panel of selected experts describes the correct patient oriented pathways for complex or unscheduled surgical operations in order to reduce the operative risk. In addition, the book describes the latest trends in minimally invasive surgical techniques that are associated with peri and post-operative risk reduction and provides an overview of recent advances in surgical simulation focusing on perspectives in surgical research to increase patient safety. Guidance is also provided on extracorporeal membrane oxygenation (ECMO), Left Ventricular Assist Devices (LVADs) and their management in patients requiring emergency surgery. The book will help surgical trainees recognize cases with the highest surgical risk and identify the most common complications at an early stage.

*The Routledge Companion to Applied Performance* Tim Prentki, Ananda Breed, 2020-12-29 The Routledge Companion to Applied Performance provides an in-depth, far-reaching and provocative consideration of how scholars and artists negotiate the theoretical, historical and practical politics of applied performance both in the academy and beyond. These volumes offer insights from within and beyond the sphere of English-speaking scholarship, curated by regional experts in applied performance. The reader will gain an understanding of some of the dominant preoccupations of performance in specified regions, enhanced by contextual framing. From the disarming of the human body through dance in Colombia to clowning with dementia in Australia, via challenges to violent nationalism in the Balkans, transgender performance in Pakistan and resistance rap in Kashmir, the essays, interviews and scripts are eloquent testimony to the courage and hope of people who believe in the power of art to renew the human spirit. Students, academics, practitioners, policy makers, cultural anthropologists and activists will benefit from the opportunities to forge new networks and develop in-depth comparative research offered by this bold global project.
