## **Joy Forever The Political Economy Of Social Creativity:**

*Joy Forever* Micha Koz Owski, Michal Kozlowski, Agnieszka Kurant, Jan Sowa, 2014-12-01 The title *Joy Forever* refers to the false promise of a common happiness constantly played out by the proponents of the creative class and creative economy the very promise that since Romanticism has been ascribed to art itself a vow which remains unfulfilled The aim of *F SUW* s publication is to scrutinize the false promises of distributed creativity as an ideology of cognitive capitalism The authors devote themselves to critical examination of the structural links between art creativity labour and the creation of value under contemporary relations of production Some of them do not stop at a critical diagnosis but go further reflecting upon potential alternatives to the status quo

**The Changing Social Economy of Art** Hans Abbing, 2019-09-14 Is art for everybody Why do art lovers attach so much value to authenticity autonomy and authorship Why did the arts become so serious in the first place Why do many artists reject commerce and cultural entrepreneurship Crucially are any of the answers to these questions currently changing Hans Abbing is uniquely placed to answer such questions and drawing on his experiences as an economist and sociologist as well as a professional artist in this volume he addresses them head on In order to investigate changes in the social economy of the arts Abbing compares developments in the established arts with those in the popular arts and proceeds to outline key ways that the former can learn from the latter by lowering the cost of production fostering innovation and becoming less exclusive These assertions are contextualized with analysis of the separation between serious art and entertainment in the nineteenth century lending credence to the idea that government supported art worlds have promoted the exclusion of various social groups Abbing outlines how this is presently changing and why while the established arts have become less exclusive they are not yet for everybody

**Applied Theatre: Economies** Molly Mullen, 2018-09-06 The *APPLIED THEATRE* series is a major innovation in applied theatre scholarship each book presents new ways of seeing and critically reflecting on this dynamic and vibrant field Volumes offer a theoretical framework and introductory survey of the field addressed combined with a range of case studies illustrating and critically engaging with practice Series Editors Sheila Preston and Michael Balfour *Applied Theatre Economies* addresses a notoriously problematic area applied theatre s relationship to the economy and the ways in which socially committed theatre makers fund finance or otherwise resource their work Part One addresses longstanding concerns in the field about the effects of economic conditions and funding relationships on applied theatre practice It considers how applied theatre s relationship with local and global economies can be understood from different theoretical and philosophical perspectives It also examines a range of ways in which applied theatre can be resourced identifying key issues and seeking possibilities for theatre makers to sustain their work without undermining their social and artistic values The international case studies in Part Two give vivid insights into the day to day challenges of resourcing applied theatre work in Chile Canada the UK New Zealand Hong Kong and the US The authors examine critical issues or points of tension that have arisen in a particular funding relationship or from specific economic

activities Each study also illuminates ways in which applied theatre makers can bring artistic and social justice principles to bear on financial and organizational processes

*Revenge Capitalism* Max Haiven,2020-05-20 Capitalism is in a profound state of crisis Beyond the mere dispassionate cruelty of ordinary structural violence it appears today as a global system bent on reckless economic revenge its expression found in mass incarceration climate chaos unpayable debt pharmaceutical violence and the relentless degradation of common life In *Revenge Capitalism* Max Haiven argues that this economic vengeance helps us explain the culture and politics of revenge we see in society more broadly Moving from the history of colonialism and its continuing effects today he examines the opioid crisis in the US the growth of surplus populations worldwide and unpacks the central paradigm of unpayable debts both as reparations owed and as a methodology of oppression *Revenge Capitalism* offers no easy answers but is a powerful call to the radical imagination

*The ABC of the projectariat* Kuba Szreder,2021-12-14 *The ABC of the projectariat* contributes new thinking on and practical responses to the widespread problem of precarious labour in the field of contemporary art It works as both a critical analysis and a practical handbook speaking to and about the vast cohort of artistic freelancers worldwide In an accessible ABC format the book strikes a unique balance between the practical and the theoretical the analysis is backed up by lived experience the arguments are rooted in concrete examples and there are suggestions for constructive action Roughly half of the entries expose the structural underpinnings of projects and circulation isolating traits such as opportunism neoliberalism inequality fear and cynicism at the root of the condition of the projectariat This discussion is paired with a practical account of different modes of action such as art strikes productive withdrawals political struggles and better social time machines Just as proletarians had nothing to lose but their chains the projectarians have nothing to miss but their deadlines

**The Handbook of Diverse Economies** J.K. Gibson-Graham,Kelly Dombroski,2020-02-28 Economic diversity abounds in a more than capitalist world from worker recuperated cooperatives and anti mafia social enterprises to caring labour and the work of Earth Others from fair trade and social procurement to community land trusts free universities and Islamic finance *The Handbook of Diverse Economies* presents research that inventories economic difference as a prelude to building ethical ways of living on our dangerously degraded planet With contributing authors from twenty countries it presents new thinking around subjectivity and methodology as strategies for making other worlds possible
