Stem Cell Research and the Collaborative Regulation of Innovation Sarah Devaney, 2013-12-13 Hopes are high that stem cell SC research will lead to treatments and cures for some of the most serious diseases affecting humankind today SC science has been used in a treatment setting in the replacement of patients windpipes and in restoring sight to patients who were blind in one eye and in future it is hoped that when the body is injured it will be able to be stimulated to produce those types of SCs necessary to repair the particular damage caused In the meantime research into specific treatments for a wide range of serious conditions is being undertaken including Alzheimer s disease cancer and diabetes The book considers the regulatory governance of stem cell research setting out a readily understandable account of the science and the challenges it poses for regulators as the research is increasingly being clinically applied It provides a critical account of those elements of a regulatory system which will be required for any jurisdiction aiming to facilitate innovative and productive SC research while maintaining appropriate ethical and legal controls The book addresses the specific failings in the current regulatory approach to SC research in the UK and goes on to look at the regulatory approaches in the US The book systematically analyses the roles and

responsibilities of the three key participants who collaborate in this process regulators scientists and tissue providers arguing that a regulatory system which fails to recognise and facilitate the vital role which each of these three groups plays runs the risk of impairing the chances of the hopes for SC research being realised The book places a particular emphasis on ensuring that those who contribute their bodily tissues to this endeavour are treated fairly involving a recognition that their tissues are their property Civil Litigation 2016-2017 Susan Cunningham-Hill,Karen Elder,2016-07-07 Making use of two case studies which run throughout the book this text provides student focused coverage of the key procedures central to the civil litigation process Innovative diagrams in the form of a timeline help students see how the procedures fit together while costs and professional conduct issues are clearly highlighted **Civil Litigation 2015-2016** Susan Cunningham-Hill,Karen Elder,2015 Civil Litigation introduces students to the processes and procedures involved in making and defending civil litigation claims The text is ideal for students taking the Legal Practice Course or relevant LLB or LLM modules and features case studies on both a personal injury matter and a commercial matter making it suitable for students with either a high street or a commercial focus Following the chronological progression of a civil litigation claim the book offers practical guidance on advising clients whilst ensuring that the principles of the SRA Handbook and Code of Conduct 2011 are maintained Students on CILEx courses new trainees in practice and paralegals will find this practical guidance of use in both their study and their work Innovative diagrams at the beginning of chapters clearly illustrate the litigation procedure and help students understand the nature of the process as a whole Examples provide students with a realistic context for their learning while issues of cost best practice and professional conduct are clearly highlighted Alternative dispute resolution is given appropriate practical emphasis and references to the Civil Procedure Rules throughout make sure that students are ready for life in practice Online Resource Centre Student Resources Case study documentation to support the fictional scenarios referred to in the book Additional chapters covering injunctions a practical guide to court hearings instructions to counsel and enforcements of judgment Annotated forms Appendix links to key Court forms Litigation train timeline to help students put the litigation process in context Podcasts Updates Weblinks Lecturer Resources Additional case study materials for lecturers including suggested answers to case study questions Video clips Test bank of over 50 multiple choice questions
