

Lock-Release freezes the target speed into the locked target window, while the unit continues to monitor both target and patrol speeds. When in Stopwatch mode, starts and stops the clock.

Fastest/Slower captures the fastest target moving within traffic (stationary and moving/opposite mode), or the target moving slower than the patrol vehicle (moving/same mode).

Hold controls the transmission of RF signal, defeating radar detectors.

Same/Opposite selects direction of target traffic when in the moving mode.

Patrol Speed Blank blanks the locked patrol speed.

Front/Rear selects appropriate antenna for monitoring traffic to the front or rear of the patrol vehicle.
