Paper 2021 2013 **Capital Punishment** C. Cliff, 2003 The issue of capital punishment is a continually debated issue
because it calls into question the values and direction of society How is a civilisation supposed to handle lawbreakers Are
some crimes so heinous and some people so dangerous that the death penalty is the only appropriate response The United
States Constitution prohibits cruel and unusual punishment but opinions on whether that includes capital punishment are
vehement on both sides Many states have some form of death penalty and public opinion seems to indicate support of it in
principle However many firestorms have erupted recently over the application of the penalty including the topics of its use on
minors and those with mental disabilities There are also questions raised about how much of a factor race plays in a capital
sentence Internationally several countries have foresworn the death penalty with certain countries in Europe and the
Americas refusing to extradite criminal suspects including suspected terrorists to the US if capital punishment is a possible
sentence With such politically flammable and ethically challenging issues hanging over it capital punishment is a vitally
important issue to understand To help facilitate that study this book assembles a carefully selected and substantial listing of
literature focussing on the death penalty Anyone researching this area of criminal justice will find this book an important tool
as it offers easy access to the most relevant works about capital punishment Following the bibliography further access is
