Jessica S Story Vampire Series 2:

Girl of Steel Melissa Wehler, Tim Rayborn, 2020-03-20 The CW's hit adaptation of Supergirl is a new take on the classic DC character for a new audience. With diverse female characters it explores different versions of the female experience. No single character embodies a feminist ideal but together they represent attributes of the contemporary feminist conversation. This collection of new essays uses a similar approach, inviting a diverse group of scholars to address the many questions about gender roles and female agency in the series. Essays analyze how the series engages with feminism, Supergirl's impact on queer audiences, and how families craft the show's feminist narratives. In the ever-growing superhero television genre, Supergirl remains unique as viewers watch a female hero with almost godlike powers face the same struggles as ordinary women in the series.

Transmediating the Whedonverse(s) Juliette C. Kitchens, Julie L. Hawk, 2019-10-29 This book explores the transmedial nature of the storyworlds created by and/or affiliated with television auteur writer and filmmaker Joss Whedon. As such, the book addresses the ways in which Whedon's storyworlds or verses employ transmedia both intrinsically as texts and extrinsically as these texts are consumed and in some cases reworked by audiences. This collection walks readers through fan and scholar fan engagement, intrinsic textual transmediality, and Whedon's lasting influence on televisual and transmedia texts. In closing, the editors argue for the need to continue research into how the Whedonverse's lend themselves to transmedial study, engage audiences in ways that take advantage of multiple media, and encourage textual internalization of these engagements within audiences.

Cult TV Heroines Catriona Miller, 2020-10-29 From Mrs. Peel to the first female Doctor Who, this book offers a timely focus on the popular phenomenon of the cult TV heroine. The enduring phenomenon of cult TV itself is carefully explored through questions of genre, the role of the audience, and the external environment of technological advances and business drivers. Catriona Miller then suggests a fresh account of the psychological dimension of the phenomenon, utilising Carl Jung's concepts of the transcendent function and active imagination. Her analysis of the heroines themselves considers the workings of the audio-visual text alongside narrative and character arcs, exploring the complex and contradictory ways in which the heroines are represented. Established cult TV favourites such as Buffy the Vampire Slayer, The X-Files, and Xena: Warrior Princess are examined alongside more recent shows such as Chilling Adventures of Sabrina, Jessica Jones, and American Horror Story: Coven.
