**Handbook of Meta-Research** Alis Oancea, Gemma E. Derrick, Nuzha Nuseibeh, Xin Xu, 2024-02-12 A collective project arising from a dynamic configuration of research concerned with systematic critical and reflexive inquiry into the normative frames institutional workings and lived realities of research this dexterously crafted Handbook acts as a working guide to the rapidly evolving interdisciplinary field of meta research Bringing together cutting edge multidisciplinary scholarship it expertly outlines key domains including the public value policy and governance of research knowledge dynamics and research cultures and careers This title contains one or more Open Access chapters The Corporatization of the Business School Tony Huzzard, Mats Benner, Dan Kärreman, 2017-04-21 With business schools becoming increasingly market driven questionable trends have emerged such as the conflation of academic and corporate management and the notion that academics and students are market players who respond rationally to market signals Using individual studies from leading scholars in a variety of disciplines and countries this book identifies the global pressures behind these trends It focuses on the debates surrounded the commercialization of business schools and the rise of different methods of measuring their success In their unique approach the authors and editors discuss the impact of the confrontation between the timeless values embodied by Minerva the Roman goddess of Wisdom and the hard realities of competition and corporatization in modern society This book will be compelling reading for students and academics in critical management studies organizational studies public management and higher education as well as for stakeholders in academia and educational policy **The Future of the Academic Journal** Bill Cope, Angus Phillips, 2009-06-22 Examines current issues in journals publishing and reviews how the industry will develop over the next few years With contributions from leading academics and industry professionals the book provides an authoritative and balanced view of this fast changing area There are a variety of views surrounding the future of journals and these are covered using a range of contributors Online access is now taken for granted 90 per cent of journals published are now available online an increase from 75 per cent in 2003 Looks at a fast moving and vital area for academics and publishers Contains contributions from leading international figures from universities and publishers University Rankings Jung Cheol Shin, Robert K. Toutkoushian, Ulrich Teichler, 2011-06-06 This ground breaking and exhaustive analysis of university ranking surveys scrutinizes their theoretical bases methodological issues societal impact and policy implications providing readers with a deep understanding of these controversial comparators The authors propose that university rankings are misused by policymakers and institutional leaders alike They assert that these interested parties overlook the highly problematic internal logic of ranking methodologies even as they obsess over the surveys assessment of their status The result is that institutions suffer from short termism realigning their resources to maximize their relative rankings While rankings are widely used in policy and academic discussions this is the first book to explore the theoretical and methodological issues of ranking itself It is a welcome contribution to an often highly

charged debate Far from showing how to manipulate the system this collection of work by key researchers aims to enlighten interested parties      Recent Advances in Game Theory and Applications Leon A. Petrosyan,Vladimir V. Mazalov,2016-09-30 This contributed volume contains fourteen papers based on selected presentations from the European Conference on Game Theory SING11 GTM 2015 held at Saint Petersburg State University in July 2015 and the Networking Games and Management workshop held at the Karelian Research Centre of the Russian Academy of Sciences in Petrozavodsk Russia also in July 2015 These papers cover a wide range of topics in game theory including recent advances in areas with high potential for future work as well as new developments on classical results Some of these include A new approach to journal ranking using methods from social choice theory A differential game of a duopoly in which two firms are competing for market share in an industry with network externalities The impact of information propagation in the model of tax audits A voting model in which the results of previous votes can affect the process of coalition formation in a decision making body The Selten Szidarovsky technique for the analysis of Nash equilibria of games with an aggregative structure Generalized nucleoli and generalized bargaining sets for games with restricted cooperation Bayesian networks and games of deterrence and A new look at the study of solutions for games in partition function form The maturity and vitality of modern day game theory are reflected in the new ideas novel applications and contributions of young researchers represented in this collection It will be of interest to anyone doing theoretical research in game theory or working on one its numerous applications
