La Nrf Notre Europe:

André Gide and the Second World War Jocelyn Van Tuyl, 2012-02-01 Arguably the most influential French writer of the early twentieth century Andr Gide is a paradigmatic figure whose World War II writings offer an exemplary reflection of the challenges facing a leading writer in a time of national collapse Tracing Gide s circuitous intellectual itinerary from the fall of France through the postwar purge this book examines the ambiguous role of France s senior man of letters during the Second World War The writer s intricate maneuverings offer privileged insights into three issues of broad significance the relationship of literature and politics in France during World War II the repressions and repositionings that continue to fuel controversy about the period and the role of public intellectuals in times of national crisis With the exception of the early wartime Journal Gide s publications during France s dark years have received little critical attention This book scrutinizes the entire wartime oeuvre in depth tracing the evolution of Gide s political views and most importantly reading the wartime texts against each other It is the interplay among these texts that reveals the full complexity of Gide s political positionings and the rhetorical brilliance he deployed to redress his tarnished image *Ideas of Europe since 1914* M. Spiering, M.

Wintle, 2002-07-09 This book is about the history of Europe in the twentieth century and concentrates on two particular aspects First it examines the impact of the Great War on Europe secondly it is concerned with European civilization and with ideas of what is meant to be European The approach is interdisciplinary including integrated analyses from politics international relations political ideas literature and the visual arts The common focus which links all the chapters is the effect of the Great War on a European mentality or European identity It targets reactions to the First World War up to 1939 but extends its coverage in many areas up to the 1990s offering a wide ranging view of Europe in the twentieth century **The**

French Writers' War, 1940-1953 Gisèle Sapiro, 2014-04-23 The French Writers War 1940 1953 is a remarkably thorough account of French writers and literary institutions from the beginning of the German Occupation through France s passage of amnesty laws in the early 1950s To understand how the Occupation affected French literary production as a whole Gis le Sapiro uses Pierre Bourdieu s notion of the literary field Sapiro surveyed the career trajectories and literary and political positions of 185 writers She found that writers stances in relation to the Vichy regime are best explained in terms of institutional and structural factors rather than ideology Examining four major French literary institutions from the conservative French Academy to the Comit national des crivains a group formed in 1941 to resist the Occupation she chronicles the institutions histories before turning to the ways that they influenced writers political positions Sapiro shows how significant institutions and individuals within France s literary field exacerbated their loss of independence or found ways of resisting during the war and Occupation as well as how they were perceived after Liberation **Intellectuals in History** Martyn Cornick, 1995 This work aims to fill a gap in our knowledge of French cultural history between the wars The contribution of the Nouvelle Revue Fran aise to the intellectual history of this period He has not been studied before The
