**Adventure Hero** Leo Hall,2025-07-26 This book explores the construction of the fin de si cle adventure hero set against a romanticised vision of the past and a nostalgic ideal of gentlemanliness but also forward looking in terms of forging a future for Britain through the imperialist dream The British Adventure Hero offers a unique focus on how the adventure hero s masculinity is shaped by Victorian industrial technological and scientific developments which influenced concepts of national identity both psychologically and physiologically Central to exploring the relationship between the adventure hero and industrialisation are the original illustrations that were printed with the stories in periodicals and the first illustrated editions This approach to studying the partnership between both text and illustrations demonstrates that the adventure story is a paradox an outcome of invention scientific technological and industrial progress yet also a supposed escape from nineteenth century industrial modernity The book traces this context through analysis of Robert Louis Stevenson s *Treasure Island* 1883 Arthur Conan Doyle s *The Lost World* 1912 Jules Verne s *Around the World in Eighty Days* 1873 and Edgar Rice Burroughs s *Tarzan of the Apes* 1912 Significantly the book also examines how these authors perspectives on the idealised English identities of their heroes are informed by their Scottish French and American nationalities    Quatre-vingts jours pour un

**Politics, Poetics, and Gender in Late Qing China**

Nanxiu Qian,2015-05-06

In 1898 Qing dynasty emperor Guangxu ordered a series of reforms to correct the political economic cultural and educational weaknesses exposed by China's defeat by Japan in the First Sino Japanese War The Hundred Day's Reform has received a great deal of attention from historians who have focused on the well known male historical actors but until now the Qing women reformers have received almost no consideration In this book historian Nanxiu Qian reveals the contributions of the active optimistic and self sufficient women reformers of the late Qing Dynasty Qian examines the late Qing reforms from the perspective of Xue Shaohui a leading woman writer who openly argued against male reformers approach that subordinated women's issues to larger national concerns instead prioritizing women's self improvement over national empowerment Drawing upon intellectual and spiritual resources from the freewheeling xianyuan worthy ladies model of the Wei Jin period of Chinese history 220-420 and the culture of women writers of late imperial China and open to Western ideas and knowledge Xue and the reform minded members of her social and intellectual networks went beyond the inherited Confucian pattern in their quest for an ideal womanhood and an ideal social order Demanding equal political and educational rights with men women reformers challenged leading male reformers purpose of achieving national wealth and power intending instead to unite women of all nations in an effort to create a just and harmonious new world

**Journey to the Center of the Earth, Twenty Thousand Leagues Under the Sea, Round the World in Eighty Days**

Jules Verne,2013-10-01 Jules Verne's most beloved novels are gathered here in one hardcover volume three thrilling tales of fabulous journeys under through and around the earth Verne was one of the great pioneers of science fiction Born in France in 1828 he wrote brilliantly about space air and underwater travel long before airplanes and space ships had been invented and he is still one of the most widely read internationally of all science fiction writers But beyond charting new territory for adventurous fiction his creations have entered our culture and taken on the magnitude and vitality of myth It is hard to imagine anyone who has not heard of Captain Nemo and his giant submarine exploring the ruins of Atlantis in Twenty Thousand Leagues Under the Sea Phileas Fogg's frantic race around the world by every means of transportation in Round the World in Eighty Days and the harrowing descent through a volcanic crater to underground caverns where prehistoric

creatures roam in Journey to the Center of the Earth These stories have seized the imaginations of readers for generations and are as vivid and exciting now as when their author first imagined traveling beyond the bounds of the possible Translated by Henry Frith    **Bulletin** Salem Public Library,1893    *Class List* Tufts Library,1900    **Athenaeum and Literary Chronicle** ,1905    **The School Review** ,1926
