Leading Change In The Congregation Spiritual:

Leading Change in the Congregation Gilbert R. Rendle, 2007-12-01 Many books have been written about leadership and change but until now none has focused on the kind of change that tears at a community's very fabric. Alban, senior consultant, Gil Rendle provides a respectful context for understanding change, especially the experiences and resistances that people feel. Rendle pulls together theory, research, and his work with churches facing change to provide leaders with practical diagnostic models and tools. In a time when change is the norm, this book helps to lead change in a spiritual and healthy way.

The Spirituality of Welcoming Dr. Ron Wolfson, 2011-06-22 A practical guide for envisioning and transforming your synagogue into a powerful new congregation of welcoming, learning, and healing. The new synagogue we envision is a spiritual center for all those who set foot inside it. It is a *kehillah kedoshah*, a sacred community where relationships are paramount, where worship is engaging, where everyone is learning, where repair of the world is a moral imperative, where healing is offered, where personal and institutional transformation are embraced. The times are ripe for this spiritual call from the Introduction. So often we want our congregations to be more, more compelling, more member-focused, more spiritual, and yet more useful for our daily lives. Through reflection, examples, tips, and exercises, and incorporating the fruits of Synagogue 2000, now Synagogue 3000, a groundbreaking decade-long program investigating the challenges facing modern synagogues, this inspiring handbook both establishes a sound foundation for why a deep hospitality is crucial for the survival of today's spiritual communities and dives into the practical hands-on how of turning your congregation into a place of invitation and openness that includes Prayer that is engaging, uplifting, and spiritually moving; Institutional deepening that is possible because of an openness to change; Study that engages adults and families as well as children; Good deeds, the work of social justice as a commitment of each and every member; An ambience of welcome that creates a culture of warmth and outreach; Healing that offers comfort and support at times of illness and loss, and much more.

The Calling of Congregational Leadership Larry L. McSwain, 2013-05-30 Leading is a calling from God, but that doesn't mean it is easy. There are choices to be made about what your congregation believes, how your church organizes for effective ministry, and how your church serves the settings of which you are a part. The good news is that others have gone before you. Author Larry L. McSwain's forty years of experience can help guide you through these choices. Rooted in research, *The Calling of Congregational Leadership* teaches a three-pronged approach to congregational leadership: being a good leader, the knowledge needed by the leader, and the managing of ministry leadership. By using this practical, holistic approach to leading congregations, McSwain shows you how to use your church's potential for conveying the power of God in the lives you touch. *The Calling of Congregational Leadership* is for those who seek to enlarge their understanding of their leadership to make their communities of faith more vital and more reflective of the mission of God in the world.

When Better Isn't Enough Jill M. Hudson, 2004-02-01 Many sociologists and a growing number of church scholars have noted that we live in a time of transition from the modern era to the postmodern Whenever a shift of this magnitude occurs it leaves all of life including the church in flux We instinctively strive to stabilize the situation by re establishing what has worked in the past Increasingly however congregations are finding that the same old things done harder or better don't seem to make a difference Author Jill Hudson argues We must identify new criteria for success and perhaps even for faithfulness and hold ourselves accountable to them Approaching the postmodern era as a tremendous opportunity Hudson identifies 12 characteristics by which we can measure effective ministry for the early 21st century Based on those 12 criteria Hudson has created evaluation tools an early measuring stick to help congregations evaluate their work in this new era Not everything of the past is ineffective and best discarded she says nor will everything we try in the future be successful But by faithfully

listening for God's guidance and carefully evaluating progress using Hudson's tools looking at the ministry of the whole people of God as well as that of the professional staff congregations can improve their ministry help members and staff grow in effectiveness deepen a sense of partnership and add new richness to the dialogue about the congregation's future

Rekindling the Mainline Stephen C. Compton, 2003-06-01 Not only do new church starts in significant numbers bring systemic change and renewal to mainline denominations but new church development brings similar change to individual aging congregations in their vicinity Author Stephen Compton argues that a decline in new church starts in the last half of the 20th century was the major contributor to the decline of mainline church groups not liberalism or lack of faith as is often cited He shows in this book how introducing considerable numbers of new congregations into these old denominations can cause these venerable institutions to revisit the meaning of church and congregation develop a clearer vision of their collective mission and grow in their ability to bring about positive change in the world In effect he contends new churches in an aging organization do not merely make it grow They make it change in ways that make it more effective in its mission and ministries This book will appeal to leaders across denominational lines including those not ordinarily called mainline and especially to pastors and leaders of older congregations **Spiritual Leadership** Henry T. Blackaby, Richard

Blackaby, 2011-05-01 Next to their Experiencing God classic Spiritual Leadership is one of Henry and Richard Blackaby's most highly regarded and best selling books to date encouraging business and church leaders alike to follow God's biblical design for success In fact the Barna Group reports that pastors list it among today's most influential writings on the topic of

how God develops guides and empowers spiritual leaders In this new trade paper edition of *Spiritual Leadership* the Blackabys update their notes on the key points regarding a leader's challenges character qualities influence decision making techniques and more all the while focusing on how leaders discover and promote God's vision for their organization and move people on to His agenda There are also new chapters on leading change and leading teams *The Church spiritual, addressed to the diocese of Southwell in his fourth visitation* George Ridding (bp. of Southwell.), 1900 **Back Talk!** Susan Willhauck, 2005 Wilhauck has heard the church say to women Don't give me any back talk Too often she contends women have been told what to do in order to get ahead In *Spirituality in Ministerial Formation* Andrew D. Mayes, 2009 In recent years theological education and training for both lay and ordained ministry have been reconceived in terms of ministerial formation But what is the origin of this paradigm and what difference does it actually make to both teachers and learners This study not only addresses these questions but also offering perspectives from the Eastern Christian traditions and from empirical research uncovers a dynamic role for prayer in the learning process It explores how different types of prayer have the potential to be a significant integrative cognitive healing empowering influence in ministerial formation and to enable a transformative process of deep learning It will prove not only to be a reference book for all practitioners in the field of theological education but also a practical workbook for teachers and students as its questions for individual or group use challenge present practice and open up new possibilities for the healing of the historic divide between theology and spirituality The book identifies elements for the development of a rich theology of ministerial formation which will enhance and energize the practice of theological education Seeking to re-balance training and formation it invites a rethink of current functionalist approaches to professionalized lay and ordained ministry in terms of discovering creative and surprising functions of spirituality within the learning process The book thus has implications for the teaching of spirituality highlighting the need to articulate an integrated spirituality of education It also addresses important aspects of the Church's mission in society and the imperative of resourcing clergy and lay ministers for their engagement with the rising interest in spirituality in today's culture Book Jacket **The Minister's Manual** James W.
