Jimmy Webb From Tunesmith:

Tunesmith Jimmy Webb, 1998-09-16 From the legendary pop artist who has given the American songbook an unparalleled number of unforgettable hits comes the definitive guide for aspiring songwriters Summary of Jimmy Webb's Tunesmith Everest Media, 2022-06-30T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The truth is that most amateur songwriters do not have a chance of being heard by anyone of importance The primary factor that separates the rejected amateur songwriter from the accepted professional is that most amateurs do not regard the writing of songs as serious hard work 2 The writer's ultimate purpose is irrelevant because a good songwriter can do all of these things and even do them all at the same time The writer should be able to write a song in any genre for any purpose 3 Songwriting is the process of creating songs and it is hard to define where idea and title are not virtually synonymous For example if you add the following sentence to the above example I want to write a song about someone who goes through acute mood swings you have an idea even though the song may not end up being called Problem Child 4 There is a technique used by all great songwriters and it is not a very difficult one to learn It involves free associating on a legal pad and then pareting down lists of cross referenced words or phrases that can be used in lyric lines *The Cake and the Rain* Jimmy Webb, 2017-04-18 Novelistic perfectly plotted and quite possibly the best pop star autobiography yet written The Wall Street Journal Jimmy Webb's words have been sung to his music by a rich and deep roster of pop artists including Glen Campbell Art Garfunkel Frank Sinatra Donna Summer and Linda Ronstadt He's the only artist ever to win Grammy Awards for music lyrics and orchestration and his chart topping career has so far lasted fifty years most recently with a Kanye West rap hit and a new classical nocturne Now in his first memoir Webb delivers a snapshot of his life from 1955 to 1970 from simple and sere Oklahoma to fast and fantastical Los Angeles from the crucible of his family to the top of his longed for profession Webb was a preacher's son whose father climbed off a tractor to receive his epiphany and Jimmy barely out of his teen age years sank down into the driver's seat of a Cobra to speed to Las Vegas to meet with Elvis Classics such as Up Up and Away By the Time I Get to Phoenix Wichita Lineman Galveston The Worst that Could Happen All I Know and MacArthur Park were all recorded by some of the most important voices in pop before Webb's twenty fifth birthday he thought it was easy The sixties were a supernova and Webb was at their center whipsawed from the proverbial humble beginnings into a moneyed and manic international world of beautiful women drugs cars and planes That stew almost took him down but Webb survived his passion for music and work among his lifelines The Cake and The Rain is a surprising and unusual book Webb's talent as a writer and storyteller is here on every page His book is rich with a sense of time and place and with the voices of characters vanished and living famous and not but all intimately involved with him in his youth when life seemed nothing more than a party and Webb the eternal guest of honor **The Wrecking Crew** Kent Hartman, 2012-02-14 Winner of the Oregon Book Award for General Nonfiction and Los Angeles Times bestseller It makes good music sound better Janet Maslin

in The New York Times A fascinating look into the West Coast recording studio scene of the 60s and the inside story of the music you heard on the radio If you always assumed the musicians you listened to were the same people you saw onstage you are in for a big surprise Dusty Street host of Classic Vinyl on Sirius XM Satellite Radio If you were a fan of popular music in the 1960s and early 70s you were a fan of the Wrecking Crew whether you knew it or not On hit record after hit record by everyone from the Byrds the Beach Boys and the Monkees to the Grass Roots the 5th Dimension Sonny Cher and Simon Garfunkel this collection of West Coast studio musicians from diverse backgrounds established themselves in Los Angeles California as the driving sound of pop music sometimes over the objection of actual band members forced to make way for Wrecking Crew members Industry insider Kent Hartman tells the dramatic definitive story of the musicians who forged a reputation throughout the business as the secret weapons behind the top recording stars Mining invaluable interviews the author follows the careers of such session masters as drummer Hal Blaine and keyboardist Larry Knechtel as well as trailblazing bassist Carol Kaye the only female in the bunch who went on to play in thousands of recording sessions in this rock history Readers will discover the Wrecking Crew members who would forge careers in their own right including Glen Campbell and Leon Russell and learn of the relationship between the Crew and such legends as Phil Spector and Jimmy Webb Hartman also takes us inside the studio for the legendary sessions that gave us Pet Sounds Bridge Over Troubled Water and the rock classic Layla which Wrecking Crew drummer Jim Gordon cowrote with Eric Clapton for Derek and the Dominos And the author recounts priceless scenes such as Mike Nesmith of the Monkees facing off with studio head Don Kirshner Grass Roots lead guitarist and future star of The Office Creed Bratton getting fired from the group and Michel Rubini unseating Frank Sinatra s pianist for the session in which the iconic singer improvised the hit making ending to Strangers in the Night The Wrecking Crew tells the collective behind the scenes stories of the artists who dominated Top 40 radio during the most exciting time in American popular culture

Plant Intelligence and the Imaginal Realm Stephen Harrod Buhner, 2014-05-14 A manual for opening the doors of perception and directly engaging the intelligence of the Natural World Provides exercises to directly perceive and interact with the complex living self organizing being that is Gaia Reveals that every life form on Earth is highly intelligent and communicative Examines the ecological function of invasive plants bacterial resistance to antibiotics psychotropic plants and fungi and the human species In Plant Intelligence and the Imaginal Realm Stephen Harrod Buhner reveals that all life forms on Earth possess intelligence language a sense of I and not I and the capacity to dream He shows that by consciously opening the doors of perception we can reconnect with the living intelligences in Nature as kindred beings become again wild scientists nondomesticated explorers of a Gaian world just as Goethe Barbara McClintock James Lovelock and others have done For as Einstein commented We cannot solve the problems facing us by using the same kind of thinking that created them Buhner explains how to use analogical thinking and imaginal perception to directly experience the inherent meanings that flow through the world that are expressed from each living form
