Le Voyage Immobile:

Encyclopedia of French Film Directors Philippe Rège, 2009-12-11 Cinema has been long associated with France dating back to 1895 when Louis and Auguste Lumi_ re screened their works the first public viewing of films anywhere Early silent pioneers Georges MZli_ s Alice Guy BlachZ and others followed in the footsteps of the Lumi_ re brothers and the tradition of important filmmaking continued throughout the 20th century and beyond In Encyclopedia of French Film Directors Philippe R_ ge identifies every French director who has made at least one feature film since 1895 From undisputed masters to obscure one timers nearly 3 000 directors are cited here including at least 200 filmmakers not mentioned in similar books published in France Each director s entry contains a brief biographical summary including dates and places of birth and death information on the individual s education and professional training and other pertinent details such as real names when the filmmaker uses a pseudonym The entries also provide complete filmographies including credits for feature films shorts documentaries and television work Some of the most important names in the history of film can be found in this encyclopedia from masters of the Golden Age_Jean Renoir and RenZ Clair_to French New Wave artists such as Fran_ois Truffaut and Jean Luc Godard ~*Leæ voyage immobile* , Book Bulletin ,1920 **Le voyage intérieur** Espace Electra,2005 Aller(s)-Retour(s) Loïc Guyon,Andrew Watts,2014-03-17 If the eighteenth century was the age of reason and enlightenment the nineteenth century was undeniably the age of movement This tumultuous period in French history bore witness to the rise and fall of countless political movements from revolutions and coups d tat to popular protests and the first workers strikes It was an age of economic movements as France embraced the new world of finance and banking and underwent its own industrial revolution Social mobility increased as a dynamic commercial bourgeoisie began to challenge the system of aristocratic privilege that neither the 1789 Revolution nor the Napoleonic Empire had dismantled entirely The era was one of artistic ferment as Romanticism gave way to Realism Naturalism Impressionism and Symbolism Intellectual and philosophical movements from Liberalism to Saint Simonianism sought both to reconcile the country with its past and construct the framework for a progressive more harmonious future Through seventeen thematic essays Aller s Retour s seeks to understand nineteenth century France as a society in perpetual motion Recognising the instability that is key to the very concept of movement this volume explores how the intellectual shifts and cross currents of the nineteenth century responded to and impacted upon each other Finally it asks why questions of motion and movement dominated this period as every sphere of French life confronted its own extremes of progress and renewal stagnancy and regression , *The Acoustical Unconscious* Robert Ryder,2022-02-21 Is there an acoustical equivalent to Walter Benjamin s idea of the optical unconscious In the 1930s Benjamin was interested in how visual media expand our optical perception the invention of the camera allowed us to see images and details that we could not consciously perceive before This study argues that Benjamin was also concerned with how acoustical media allow us to hear otherwise that is to listen to sound structures previously lost to the

naked ear Crucially they help sensitize us to the discursive sonority of words which Benjamin was already alluding to in his autobiographical work In five chapters that range in scope from Tieck s Blonde Eckbert which Benjamin once called his locus classicus of his theory of forgetting to Alexander Kluge s films and short texts where he develops what he calls sound perspectives this monograph discusses how the acoustical unconscious enriches our understanding of different media from the written word to radio and film As the first book length study of Benjamin s linguistic cultural historical and media theoretical reflections on sound this book will be particularly relevant to students and scholars of both German studies and sound studies

Traveling in Place Bernd Stiegler, 2024-05-31 Armchair travel may seem like an oxymoron Doesn t travel require us to leave the house And yet anyone who has lost herself for hours in the descriptive pages of a novel or the absorbing images of a film knows the very real feeling of having explored and experienced a different place or time without ever leaving her seat No passport no currency no security screening required the luxury of armchair travel is accessible to us all In *Traveling in Place* Bernd Stiegler celebrates this convenient magical means of transport in all its many forms Organized into twenty one legs or short chapters *Traveling in Place* begins with a consideration of Xavier de Maistre s 1794 *Voyage autour de ma chambre* an account of the forty two day journey around his room Maistre undertook as a way to entertain himself while under house arrest Stiegler is fascinated by the notion of exploring the familiar as though it were completely new and strange He engages writers as diverse as Roussel Beckett Perec Robbe Grillet Cort zar Kierkegaard and Borges all of whom show how the everyday can be brilliantly transformed Like the best guidebooks *Traveling in Place* is more interested in the idea of travel as a state of mind than as a physical activity and Stiegler reflects on the different ways that traveling at home have manifested themselves in the modern era from literature and film to the virtual possibilities of the Internet blogs and contemporary art Reminiscent of the pictorial meditations of Sebald but possessed of the intellectual playfulness of Calvino *Traveling in Place* offers an entertaining and creative Baedeker to journeying at home

Decreation and the Ethical Bind Yoon Sook Cha, 2017-06-01 In Simone Weil s philosophical and literary work obligation emerges at the juncture of competing claims the other s self affirmation and one s own dislocation what one has and what one has to give a demand that asks for too much and the extraordinary demand implied by asking nothing The other s claims upon the self which induce unfinished obligation unmet sleep hunger drive the tensions that sustain the scene of ethical relationality at the heart of this book *Decreation and the Ethical Bind* is a study in decreative ethics in which self dispossession conditions responsiveness to a demand to preserve the other from harm In examining themes of obligation vulnerability and the force of weak speech that run from Levinas to Butler the book situates Weil within a continental tradition of literary theory in which writing and speech articulate ethical appeal and the vexations of response It elaborates a form of ethics that is not grounded in subjective agency and narrative coherence but one that is inscribed at the site of the self s depersonalization
