Okun, James J. Levine, 2001 Nearly one in four American adults are on psychiatric drugs and Ritalin production has increased 800 percent since 1990 yet the mental health industry laments the fact that two thirds of us with diagnosable mental disorders do not seek treatment The author argues that institutional mental health s ever increasing diseases disorders and drugs divert us from examining an important rebellion This rebellion mainly passive and too often self destructive is against an increasingly impersonal and coercive institutional society Institutional society s worship of speed power and technology has created fantastic wealth at least for some of us but its disregard for human autonomy community and diversity has come with a cost
