

Changing The Laser Mode

One of the unique features of the J-Max™ Laser System is the ability to change the laser mode. The J-Max™ comes factory set for a modulated (pulsed) beam for higher visibility. To change this setting to a continuous wave (steady on) beam, follow these simple steps:

- 1 Remove both Grips (A & B).
- 2 Switch the Beam Selection Switch on the Laser Side Plate (C) to the left (See Figure h)
- 3 Reassemble as usual.

To return to modulated (pulsed) laser mode, repeat steps 1-3. Right = Pulsed; LEFT = Continuous Mode.

Aligning The Laser For POA/POI

The hole at the top adjusts elevation (vertical alignment).*

The hole at the side adjusts windage (horizontal alignment).**

NOTE: When installing J-Max™ for the first time, a slight shift in alignment may be noticed after firing, due to settling. Recheck alignment after your first trip to the range. Readjust if necessary.

You can easily fine tune your laser to accommodate any weapon platform, type of ammunition or shooting distance.

- 1 To sight in the laser, insert Alignment Tool (H) into one of the holes at the top of the laser side plate (C).
- 2 Fine tune your laser alignment by slowly turning the Alignment Tool (H), then checking your laser position against your iron sights & your POI (Point of Impact). One half turn will be roughly equal to an adjustment of two feet at twenty yards.

*A clockwise turn lowers your elevation. **A clockwise turn moves your windage to the left. Use of a boresighter to sight in your laser is not recommended. Your POI will vary greatly depending on range and ammunition.

Storing Your Alignment Tool & Batteries

Your J-Max™ laser comes with two (2) Alignment Tools (H) for your convenience. One tool can be stored on the inside of the Left Grip (A) for use on the range or in the field.

A spare set of 357 Batteries (not included) can also be stored inside the Left Grip (A). Replacing batteries once a year is recommended.

SPARE PARTS LIST: Replacement Batteries: LMS-2x357; *Service Kit: LMS-JMX-SK

*Service Kit includes: (1) Grip Screw (D), (2) Side Plate Screws (E), (1) Large Hex Wrench (G), (1) Alignment Tool (H), (1) Laser Warning Label (I), (1) Battery Cover (J), (2) Alignment Screws
