

## INSTALLATION BULLETIN

# MR4 Refrigeration Temperature/Defrost Control

### IMPORTANT:

All MR4 controls are designed for use only as operating controls. Where an operating control failure would result in personal injury or loss of property, it is the responsibility of the installer to add devices (safety, limit controls) or systems (alarm, supervisory systems) that protect against, or warn of, control failure.

Refer to the *MR Series Refrigeration Temperature Controls Product Bulletin, LIT-125199*, for necessary information on operation and performance specifications for this product.

## Mounting

The MR4 control is not position-sensitive but should be mounted for convenient wiring and adjustment.

To mount the Panel Mount version, ensure that there is at least 2 3/4 inches (70 mm) space behind the panel. Make a cutout 1 3/16 x 2 13/16 inches (29 x 71 mm). Remove retaining clip from the control. Insert the control into the hole. Install retaining clip and adjust for tightness.

To mount the DIN Rail Mount version, install the DIN rail where appropriate. Snap the control onto the rail into position.

## Repair and Replacement

Field repair of the control should not be made. In case of a defective or improperly functioning control, check with your nearest authorized Johnson Controls/PENN distributor. When contacting the supplier for replacement, state the model number of the control. This number can be found on the data plate.

## Wiring

**WARNING: Shock Hazard.** To avoid possible electrical shock or damage to equipment, disconnect power supply before wiring any connections.

Follow these wiring guidelines:

- All wiring must conform to the National Electric Code and local regulations.
- Make all wiring connections using adequate gauge copper conductors only. Connectors are rated for 14-22 AWG wiring.

Refer to Rating Table for more information.
