**Business for Society** Lucia Michela Daniele, Rémi Jardat, Jérôme Méric, Francesco Gangi, 2019-10-08 This book is about promoting corporate responsibility in its original meaning businesses should have a positive impact on society and society should not only be a lever of making a profit When we treat social responsibility as an external function of the core business we are exposed to the worst Business for Society seeks to redress the balance and promotes the original idea of corporate responsibility This first book in the series of the same name sets the scene and presents the key theories across the various management disciplines to answer the following questions How why and under what conditions can business act for society The book narrows and discusses examples of businesses which are making impressive strides in delivering positive impacts for society as well as their bottom lines but as the concept of corporate responsibility has become more mainstream in recent years many organisations have adopted the term and reduced it to a marketing message Areas covered include a historical perspective on the hijacking of business responsibility towards society

management knowledge and value the Business for Society project against hijacking accounting for society finance for society and governance for society and democracy The book will be of interest for scholars and students in the fields of corporate social responsibility business ethics and governance Ethics of Data and Analytics Kirsten Martin,2022-05-12

The ethics of data and analytics in many ways is no different than any endeavor to find the right answer When a business chooses a supplier funds a new product or hires an employee managers are making decisions with moral implications The decisions in business like all decisions have a moral component in that people can benefit or be harmed rules are followed or broken people are treated fairly or not and rights are enabled or diminished However data analytics introduces wrinkles or moral hurdles in how to think about ethics Questions of accountability privacy surveillance bias and power stretch standard tools to examine whether a decision is good ethical or just Dealing with these questions requires different frameworks to understand what is wrong and what could be better Ethics of Data and Analytics Concepts and Cases does not search for a new different answer or to ban all technology in favor of human decision making The text takes a more skeptical ironic approach to current answers and concepts while identifying and having solidarity with others Applying this to the endeavor to understand the ethics of data and analytics the text emphasizes finding multiple ethical approaches as ways to engage with current problems to find better solutions rather than prioritizing one set of concepts or theories The book works through cases to understand those marginalized by data analytics programs as well as those empowered by them Three themes run throughout the book First data analytics programs are value laden in that technologies create moral consequences reinforce or undercut ethical principles and enable or diminish rights and dignity This places an additional focus on the role of developers in their incorporation of values in the design of data analytics programs Second design is critical In the majority of the cases examined the purpose is to improve the design and development of data analytics programs Third data analytics artificial intelligence and machine learning are about power The discussion of power who has it who gets to keep it and who is marginalized weaves throughout the chapters theories and cases In discussing ethical frameworks the text focuses on critical theories that question power structures and default assumptions and seek to emancipate the marginalized The Journal of Business Education ,1929 **The Journal of Political Economy** ,1915 **Current Law Index** ,2005 The Yale Law Journal ,1927 Annotated Laws of Massachusetts Massachusetts,2010 **Public Affairs Information Service Bulletin** ,1924 **Journal of Pharmaceutical Sciences** ,1920 Vols for 1912 45 include proceedings of the association s annual meeting **Journal of the American Pharmaceutical Association** American Pharmaceutical Association,1920 Yearbook New York County Lawyers' Association,1927 Journal of Accountancy ,1909 The Reminder ,1915 *Moral Issues in Business* William H.
