**Discipline Problems** Tadashi Dozono, 2024-05-07 Angel a Black tenth grader at a New York City public school self identifies as a nerd and likes to learn But she s troubled that her history classes leave out events like the genocide and dispossession of Indigenous people in the Americas presenting a sugar coated image of the United States that is at odds with her everyday experience The history I learned in school is simpler she says The world I live in is a lot more complex Angel like every student interviewed in Discipline Problems has been identified by teachers as a troublemaker a student whose behavior disrupts classroom norms and interferes with instruction But her critiques of the curriculum she s taught speak to her curiosity and insight crucial foundations for understanding history Like many students who have been marginalized by systemic racism in American schools she exposes the shortcomings of her classrooms academic environments by challenging both the content and the methods of her education All too often these challenges are framed as troublemaking and the students are disciplined for acting out instead of being rewarded for their intellectual engagement Tadashi Dozono a professor of education and former high school social studies teacher takes seriously the often overlooked critiques that students of color who get labeled as troublemakers direct toward their high school history curriculum He reinterprets troublemaking usually cast as a behavioral deficit as an intellectual asset and form of reasoning that challenges the disciplining reason of classrooms where whiteness is valued over the histories and knowledge of people of color Dozono shows how what are traditionally framed as discipline problems can be seen through a different lens as responses to educational practices that marginalize non white students Discipline Problems reveals how students of color seek out alternate avenues for understanding their world and imagines a pedagogy that champions the curiosity intellect and knowledge of marginalized learners

Hazelkorn, 2015-03-23 University rankings have gained popularity around the world and are now a significant factor shaping reputation This second edition updates Ellen Hazelkorn s first comprehensive study of rankings from a global perspective drawing in new original research and extensive analysis It is essential reading for policymakers managers and scholars

*The Phenomenon of Obama and the Agenda for Education - 2nd Edition* Paul R. Carr, Brad J. Porfilio, 2015-02-01 Anyone who is touched by public education teachers administrators teacher educators students parents politicians pundits and citizens ought to read this book a revamped and updated second edition It will speak to educators policymakers and citizens who are concerned about the future of education and its relation to a robust participatory democracy The perspectives offered by a wonderfully diverse collection of contributors provide a glimpse into the complex multilayered factors that shape

and are shaped by education institutions today The analyses presented in this text are critical of how globalization and neoliberalism exert increasing levels of control over the public institutions meant to support the common good Readers of this book will be well prepared to participate in the dialogue that will influence the future of public education in United States and beyond a dialogue that must seek the kind of change that represents hope for all students As for the question contained in the title of the book The Phenomenon of Obama and the Agenda for Education Can Hope Still Audaciously Trump Neoliberalism Second Edition Carr and Porfilio develop a framework that integrates the work of the contributors including Christine Sleeter and Dennis Carlson who wrote the original forward and afterword respectively and the updated ones written by Paul Street Peter McLaren and Dennis Carlson which problematize how the Obama administration has presented an extremely constrained conservative notion of change in and through education The rhetoric has not been matched by meaningful tangible transformative proposals policies and programs aimed at transformative change and now fully into a second mandate this second edition of the book is able to more substantively provide a vigorous critique of the contemporary educational and political landscape There are many reasons for this and according to the contributors to this book it is clear that neoliberalism is a major obstacle to stimulating the hope that so many have been hoping for Addressing systemic inequities embedded within neoliberalism Carr and Porfilio argue is key to achieving the hope so brilliantly presented by Obama during the campaign that brought him to the presidency

Activism and the Fossil Fuel Industry Andrew Cheon, Johannes Urpelainen, 2018-02-06 In less than a decade activism against the fossil fuel industry has exploded across the globe While environmentalists used to focus on legislative goals such as carbon emissions trading or renewable energy policies today the most prominent activists directly attack the fossil fuel industry This timely book offers a comprehensive evaluation of different types of activism the success and impact of campaigns and activities and suggestions as to ways forward This book is the first systematic treatment of the anti fossil fuel movement in the United States An accessible and readable text it is an essential reference for scholars policymakers activists and citizens interested in climate change fossil fuels and environmental sustainability The entire book or chapters from it can be used as required or supplementary material in various courses at the undergraduate and graduate level As the book is not technically challenging but contains a comprehensive review of climate change fossil fuels and the literature on environmental activism it can be used as an accessible introduction to the anti fossil fuel campaign across disciplines

**Atlas of Material Worlds** Matthew Seibert, 2021-08-17 Atlas of Material Worlds is a highly designed narrative atlas illustrating the agency of nonliving materials with unique ubiquitous and often hidden influence on our daily lives Employing new materialism as a jumping off point it examines the increasingly blurry lines between the organic and inorganic engaging the following questions What roles do nonliving materials play Might a closer examination of those roles reveal an undeniable agency we have long overlooked or disregarded If so does this material agency change our understanding of the social structures ecologies economies

cosmologies technologies and landscapes that surround us And perhaps most importantly why does material agency matter This is the story of the world s driest nonpolar desert pink flamingos and cerulean blue lithium ponds industrial shipping logistics pudding like jiggling substrates and monuments of mud galactic bodies radioactive sheep and the yellowcake of uranium Put simply this book dares readers to see the world anew from material up Atlas of Material Worlds offers this new relationship to our host environment in a time of mounting crises accelerating climate change ballooning socioeconomic inequality and rising toxic nationalism uniquely telling materialist stories for practitioners and students in landscape architecture and other built environment disciplines
