The Law & Justice (Power)

The justice system plays an integral part of Charlie's ethos. Charlie is idealistic in his belief that justice is always pursued to the utmost degree; those who commit illegal acts are sanctioned accordingly. However, Jasper - having personally experienced the brutal nature of those in charge - is rather frank in his outlook that the concurrent legal mechanisms are worthless and do not exist to achieve equity.

This novel explores illegal transgressions/harmful conduct. This can be found in many instances, including:

- Laura's sexual abuse and her consequential suicide
- Jack Lionel's 'killing' of Jasper's mother
- Jasper's petty theft
- An Lu and Mrs Lu experiencing physical and verbal attacks
- Eliza committing arson
- The Sergeant assaulting Jasper

In many of these instances the justice system fails to achieve justice. This prompts Charlie to lose faith in it. Eliza's arson of her family home is the catalyst of this new-found disposition. Charlie describes her illegal conduct as being of an innocuous nature, but in reality, this act was completely illegal and contradicts Charlie's initial ethos. Hence, Charlie's perception of justice has changed from being black and white, to analysing the reasoning behind certain conduct.

Final Solutions Benjamin A. Valentino, 2013-01-19 Benjamin A. Valentino finds that ethnic hatreds or discrimination undemocratic systems of government and dysfunctions in society play a much smaller role in mass killing and genocide than is commonly assumed. He shows that the impetus for mass killing usually originates from a relatively small group of powerful leaders and is often carried out without the active support of broader society. Mass killing in his view is a brutal political or military strategy designed to accomplish leaders' most important objectives: counter threats to their power and solve their most difficult problems. In order to capture the full scope of mass killing during the twentieth century, Valentino does not limit his analysis to violence directed against ethnic groups or to the attempt to destroy victim groups as such as do most previous studies of genocide. Rather, he defines mass killing broadly as the intentional killing of a massive number of noncombatants using the criteria of 50 000 or more deaths within five years as a quantitative standard. *Final Solutions* focuses on three types of mass killing: communist mass killings like the ones carried out in the Soviet Union, China, and Cambodia; ethnic genocides as in Armenia, Nazi Germany, and Rwanda; and counter guerrilla campaigns including the brutal civil war in Guatemala and the Soviet occupation of Afghanistan. Valentino closes the book by arguing that attempts to prevent mass killing should focus on disarming and removing from power the leaders and small groups responsible for instigating and organizing the killing.
