**Chemistry for Advanced Level Course** Ted Lister, Janet Renshaw, 2000 This course study guide is designed to complement New Understanding Chemistry for Advanced Level but it can be used with any other core textbook for AS and A Level Chemistry as well. It aims to help further develop chemistry skills such as laboratory techniques, mathematical methods and data handling. The course study guide also provides outline solutions to a selection of questions and gives advice on answering all types of examination questions and support for Key Skills.

**2012 GCSE English results** Great Britain: Parliament: House of Commons: Education Committee, 2013-06-11 The 2012 GCSE English results prompted significant controversy which ultimately resulted in an application for judicial review. This report sets out the background to these events and identifies lessons to be learned. The problems with GCSE English can be traced back to the 2007/09 development phase of the qualification, in particular the turbulence which resulted from the shift away from a mostly linear to a modular system combined with a high proportion of controlled assessment and generous marking tolerances. Exam board experts raised concerns at the time but these were not acted upon by the regulator, the then interim Ofqual. Further difficulties arose because of pressures from the school accountability system. The problems experienced with GCSE English in 2012 highlighted serious weaknesses in the moderation of speaking and listening with consequences for grade awarding. The current status of Ofqual as an independent regulator accountable to Parliament is the right one. However, the Coalition Government is bringing in wholesale changes to GCSEs and A levels to a tight timetable and at the same time Ofqual must have systems in place. The Committee is also concerned that there is a rush towards separate exam systems for England, Wales and Northern Ireland without careful reflection on what might be lost or consensus that this is the right thing to do.

*Pure Maths* Peter Sherran, Janet Crawshaw, 1997 A good grade at A Level or Scottish Higher Grade can depend on the student's ability to tackle exam questions confidently and to understand the technique involved in answering questions accurately. The aim of this text is to help students learn how to answer questions in an exam environment. It provides an insight into the mind of the examiner, highlighting what makes a good answer, how marks are allocated and what the most common mistakes are. Questions are taken from past papers or newly written by the authors with revision summaries, answers with full working and examiner's tips. They are an ideal complement to A Level study guides.
