

LYMAN SHOTSHELL PRESS

The cost of shotgun shells, like other costs, has been rising rapidly over the last several years. When a box of shells that you could once buy for \$1.25, costs as much as \$3.75, most shotgun enthusiasts can't afford to shoot as much as they would like to. The hunter who fires a shell, ejects it, and leaves the empty case behind in the field is throwing away half the cost of each round. This cost can be turned into an investment by reloading. The basic steps in shotshell reloading, decapping, priming, loading the powder, wad and shot, are steps to real shooting economy. With Lyman equipment, reloading is quick, simple and safe—and the equipment will pay for itself out of the savings it makes possible in just one season of shooting.
