Manifeste pour une renaissance Bernard Besret, 2015-10-01 Il y a bien cinq siècles la Renaissance a t d abord ressentie par le plus grand nombre comme un chaos culturel et social avant que ne soit perue l émergence d une vision neuve du monde La fin de cycle dont nous sommes aujourd hui les acteurs autant que les observateurs nous oblige de m me qu cette poque remettre en cause notre univers mental trop souvent pris pour la seule représentation possible du réel La crise n est pas uniquement conomique elle relève d abord et avant tout du culturel voire du spirituel Partant de cette interprétation de notre fin de mill naire comme temps de mutation Bernard Besret nous invite discerner au milieu des turbulences douloureuses qui minent notre monde les signes d un renouveau De l ecologie aux rapports Nord Sud de la parité hommes femmes aux relations entre science et spiritualité de l exploration des différentes dimensions du corps la revalorisation du travail c est une nouvelle cohérence qui s esquisse sous nos yeux dont l émergence relève d pend en grande partie de notre aptitude penser sentir aimer autrement Fort de sa longue et tumultueuse expérience de vie monastique puis de ses années passées au service de la Cité des Sciences l auteur de *Confiteor* nous appelle travers ce Manifeste devenir les philosophes de notre propre vie

Resentment and the Right Sarah Shurts, 2017-06-05 *Resentment and the Right* French Intellectual Identity Reimagined 1898 2000 examines a century long struggle between cultural spokesmen on the extreme right and left to dominate and define the concept of the intellectual This struggle began with the introduction of the intellectual during the Dreyfus Affair of 1898 and continues even today among the intellectuals of the Nouvelle Droite This struggle to monopolize the public perception of intellectual identity and the status of moral and political guide the title conferred consumed the intellectual leaders of the extreme right and left and saturated their engagement in political affairs Because the left was the first to claim the title of intellectual in 1898 they defined the concept according to their own values and experiences Hereafter when intellectuals of the extreme right felt called to engage in public affairs they portrayed their struggle for recognition as one of an oppressed and ostracized minority against a hegemonic left Their resentment of this perceived repression became integral to their linguistic tropes professional trajectories cultural practices and their self conceptualization as intellectuals The book is organized around the argument that at each perceived national crisis throughout the century when intellectuals felt called to engage the right wing struggle to define true intellectual identity for the public followed a similar cycle self identification as intellectuals perception of exclusion by the intellectual left resentment of this ostracism and development of linguistic tropes of left wing hegemony and right wing repression differentiation revaluation and reappropriation of cultural values self imposed segregation of social networks and professional trajectories internalization and revaluation of their perceived role as intellectual pariahs and eventual isolation alienation and radicalization from the mainstream intellectual and political world All together this has resulted in a very

different experience of intellectual life and a distinctive understanding of what it means to be an intellectual over the century

Key Thinkers of the Radical Right Mark Sedgwick, 2019-01-04 Since the start of the twenty first century the political mainstream has been shifting to the right The liberal orthodoxy that took hold in the West as a reaction to the Second World War is breaking down In Europe populist political parties have pulled the mainstream in their direction in America a series of challenges to the Republican mainstream culminated in the 2016 election of Donald Trump In **Key Thinkers of the Radical Right** sixteen expert scholars explain sixteen thinkers providing an introduction to their life and work a guide to their thought and an explanation of their work s reception The chapters focus on thinkers who are widely read across the political right in both Europe and America such as Julius Evola Alain de Benoist and Richard B Spencer Featuring classic modern and emerging thinkers this selection provides a good representation of the intellectual right and avoids making political or value judgments In an increasingly polarized political environment **Key Thinkers of the Radical Right** offers a comprehensive and unbiased introduction to the thinkers who form the foundation of the radical right *Bulletin bibliographique et*
