This symbol is used to call your attention to instructions concerning your personal safety. Be sure to observe and follow these instructions.

Before hitching or adjusting the drill, shut off the tractor engine and set the parking brake.

When hitching the drill, lock the tractor drawbar in the center position and attach the safety chain.

Lower the furrow openers onto the ground before lubricating the drill.

Keep all safety shields in place when the machine is operating.

**CAUTION:** Maximum recommended towing speed for your drill is 20 mph (32 km/h) with hopper empty.

Lock up both markers in the transport position when not in use.

Do not hold the hydraulic cylinder while extending or retracting it.

Keep hands, feet and clothing away from all moving parts. Wear close-fitting clothing for added safety.

Lock the tractor brake pedals together when transporting the drill on public roads. Keep the tractor in gear when going downhill.
