

Manatees

If we look at manatees meaning: it is a large, fully aquatic herbivore marine mammal, also known as sea cows. There are accepted three living species of this mammal, West Indian manatees, West African manatees, and Amazonian manatees. Manatees are larger and measure up to 4 meters in length and 590 kilograms in weight. These mammals are pure herbivores and depend upon freshwater and saltwater plants. Manatees are found in the marshy coastal area, shallow areas of West Africa, the Gulf of Mexico, and the Amazon basin. This mammal is close to extinction due to various reasons.
